ALBERTA TRADE TOKENS

INTRODUCTION:

"*Alberta Trade Tokens*" by *Donald M. Stewart* was published in 1987. It is the go-to document for collectors of Alberta trade tokens. *Don's* book is a superb document that has stood the test of time and will always remain the number one document covering this very interesting topic. The in-depth information related to Alberta trade tokens and the excellent illustrations make this a "must have" for any serious token collectors bookshelf. It is the foundation for this comprehensive listing of Alberta Trade Tokens.

"*Alberta Trade Tokens*" was issued thirty-two years ago and in that time many new tokens have been issued for use in Alberta and many older tokens have been discovered. Knowing this, it was felt that it was about time to try and come up with a consolidated comprehensive listing. There are probably not that many collectors of Alberta trade tokens. We are not really sure how many of us there really are, and the fact that we are likely spread out across the Province and throughout North America, the exchange of information is fraught with difficulties.

Knowing that the illustrated listing of tokens in *Don's* book really needed to be updated many collectors have been keeping and adding to their own lists. A couple of collectors have been drawing from others lists to try and get as many tokens in one listing as possible. John Humphrey has been diligently tracking down tokens and token information and has been marking up his copy of "*Alberta Trade Tokens*" ever since *Don Stewart* turned over his collection to the Alberta Archives in Edmonton. Al Munro has also been tracking down Alberta trade tokens and has been making his finds and information available for documenting. Elmer Lupul has also been busy collecting Alberta trade tokens and has been measuring, documenting and photocopying information and making the information available. Tim Saunders has been using a Microsoft Word form, developed by his wife and a friend of hers, to compile a listing from *Don's* book, John's mark-up and his own collection and token information.

Meanwhile for the past number of years I have been keeping a Microsoft Access database of *Don's* listed tokens, my own collection and information I have been gathering as well as the significant contributions I have received from Elmer Lupul and Al Munro. Early in 2010 I managed to get together with Tim Saunders and obtained an electronic copy of the token list he had compiled. As a starting point I made minor modifications to Tim's form and began undertaking the monumental task of combining all of the Alberta trade token information I now had on hand. After a lot of cross referencing of the various information packets and lots of dialogue with the collectors mentioned I finished up my review by having multiple meetings and many long telephone conversations with John Humphrey. As well, over the years input has also been received from many other collectors. The result is this listing which is truly a major collaborative effort of Alberta trade token collectors John Humphrey, Elmer Lupul, Tim Saunders, Al Munro and myself (Eric) which equates to **JETA E**. I can personally say that I am very appreciative and thankful for the input and support I have received while compiling this document. This listing certainly never would have happened without the combined effort of all involved.

This is an illustrated listing but I have also attempted to document the actual case sensitive wording as it appears on each token. I know that a picture is worth a thousand words but some of the images are very difficult to read. The quality of Donald Stewart's rubbings are superb, and very time consuming to produce, and remain as black and white. It is hoped that this listing is of use to collectors and dealers alike and that it prompts lots of input to allow for future updates. Given the number of hours spent by the collectors involved in putting together this listing we the magnitude of actually putting pictures to the words was monumental. Many thanks really need to be given to *Donald Stewart* for leading the way by providing collectors with the original "*Alberta Trade Tokens*" and also to the "*J. Douglas Ferguson Historical Research Foundation*" for their financial support. *Don's* book was printed in Canada by "*D.W. Friesen & Sons Ltd.*" (ISBN 0-9692372-0-X).

If a token number is followed by an "**" it means that the token is believed to be from that location but that it could not yet be verified.

For those interested in statistics *Don Stewart's* 1987 publication lists 2,178 tokens and this current collaborative list now consists of around 4,510+ listed tokens (including the 360+ cart tokens). This is an increase of over 100% in thirty-one years or an average of about 73 unlisted tokens added per year. Of course token collecting has changed considerably in this time with almost no new dairy or bread tokens being issued but with the appearance of new kinds of tokens such as the shopping cart tokens (most of which are advertising pieces - quasi tokens), curling Brier tokens and lots of the ever popular plastic drink tokens. Some metal tokens are still being produced such as car wash and amusement tokens as well as curling tokens but most of the new tokens are of the plastic variety. This of course does make for a very colourful collection. Given the large number of cart tokens that have been discovered (most used for advertising but still "good fors" - quasi tokens) I decided to move them all to the end of the main trade token listing and have given each token a unique identifier (starting with CT-) which keeps them in the overall listing but removed from the traditional trade tokens sections.

Please send any comments, suggestions, queries or Alberta trade token information to:

Eric Jensen egjensen@telus.net

NOTE: The *Alberta General* section includes tokens that we believe were used or distributed in Alberta. In many cases it was difficult to prove for certain that all of the listed tokens were used at one or more locations in Alberta. This is very true for the tokens such as the Manufacturers Stock Car Wash tokens and if we were somewhat sure they have been included for information purposes. If collectors know for sure where many of these tokens were used we would appreciate hearing from them and will add the information in any upcoming updates, should that happen.

<p>For information purposes the known varieties of these Canadian Bakeries Ltd. Bakery tokens are listed below. The top number usually designated the route number, 4X was the popular name for this bakeries bread and the bottom number, when included, was a control number to prevent fraud. As these tokens were hand stamped differences in where they were stamped, whether the stamps are sideways or upside down or doubled have not been considered as separate tokens. Nor has the placement of the hole in relation to the stampings been considered.</p> <p>NOTE:</p> <div data-bbox="521 426 1105 653" style="border: 1px solid black; padding: 5px; text-align: center;"> <p>Canadian Bakeries Limited Manufacturers of 4X BREAD AND CAKES 4X Phones { 3266 Corner 8th STREET { 2175 and 7th AVENUE</p> </div>

Note regarding Maverick Tokens: as well as the unattributed maverick tokens listed above, in Don Stewart's book and throughout this listing if a token number is followed by an "*" it means that the token is believed to be from that location but that it could not yet be verified. Examples of where this is used is CA4740a*, ED450a* and ED595b* to s*. See Alberta Trade Tokens Page ix "When an asterisk follows the number, it indicates that the attribution is not yet firm."

End Of Unattributed Maverick Trade Tokens Listing

Excerpts from *Donald M. Stewart's "Alberta Trade Tokens" (1987)* - expanded where necessary:

SYMBOLS AND ABBREVIATIONS (from page x)

"The symbols and abbreviations used to describe the tokens are those suggested by the Canadian Numismatic Research Society, with amendments introduced by Leslie C. Hill and further changes and additions by myself." (Donald Stewart)

MATERIALS (portions from page x)

A	Aluminum	Le	Leather
AF	Aluminum and Fibre	N	Nickel (magnetic)
Ar	Aluminum anodized red (or other)	NAA	Aureate nickel alloy (ALPACA) (non-magnetic)
AS	Aureate Steel	NABz	Nickel aluminum bronze alloy
B	Brass	NB	Nickel and Brass
BM	Bi-Metallic (aluminum in a brass ring or other)	NBS	Nickel Bonded Steel (Sherritt Mint process)
Bz	Bronze	NS	Nickel Silver (non-magnetic)
aBz	Antiqued bronze (or other)	P	Plastic
C	Celluloid	Pr	Plastic red (or other colour)
Cl	Clay (poker chip style)	S	Silver
Cu	Copper	SpBz	Silver plated bronze (or other plating / material)
F	Fibre (used for some cardboard pieces as well)	TP	Tin and Plastic
G	Gold	V	Vulcanite
GS	German Silver (non-magnetic)	WM	White Metal (non-magnetic)
I	Iron or steel (magnetic)	mWM	Magnetic White Metal
L	Lead	Z	Zinc

COLOURS (portions from page x)

a	azure
bu	blue
k	black
br	brown
cr	cream
g	green
go	gold
gy	grey

in	indigo
la	lavender
li	lilac
mr	maroon
mu	mauve
multi	multiple (3+)
o	orange
pi	pink

pu	purple
r	red
si	silver
ta	tan (buff)
w	white
y	yellow

(See notes regarding colours of tokens following the 'EXAMPLES' section below.)

MISCELLANEOUS (portions from page x)

obv.	Obverse		incuse	letters cut into the token	
rev.	Reverse		Uniface	one side is blank	
n/s	not seen		Bifacial	both sides are identical	
/	a single / indicates a line break				
//	a double // indicates a change from the Obv. to the Rev. of a token		()	generally () are used to indicate a feature or a use for a token	

SHAPES (as per images below from page xi)

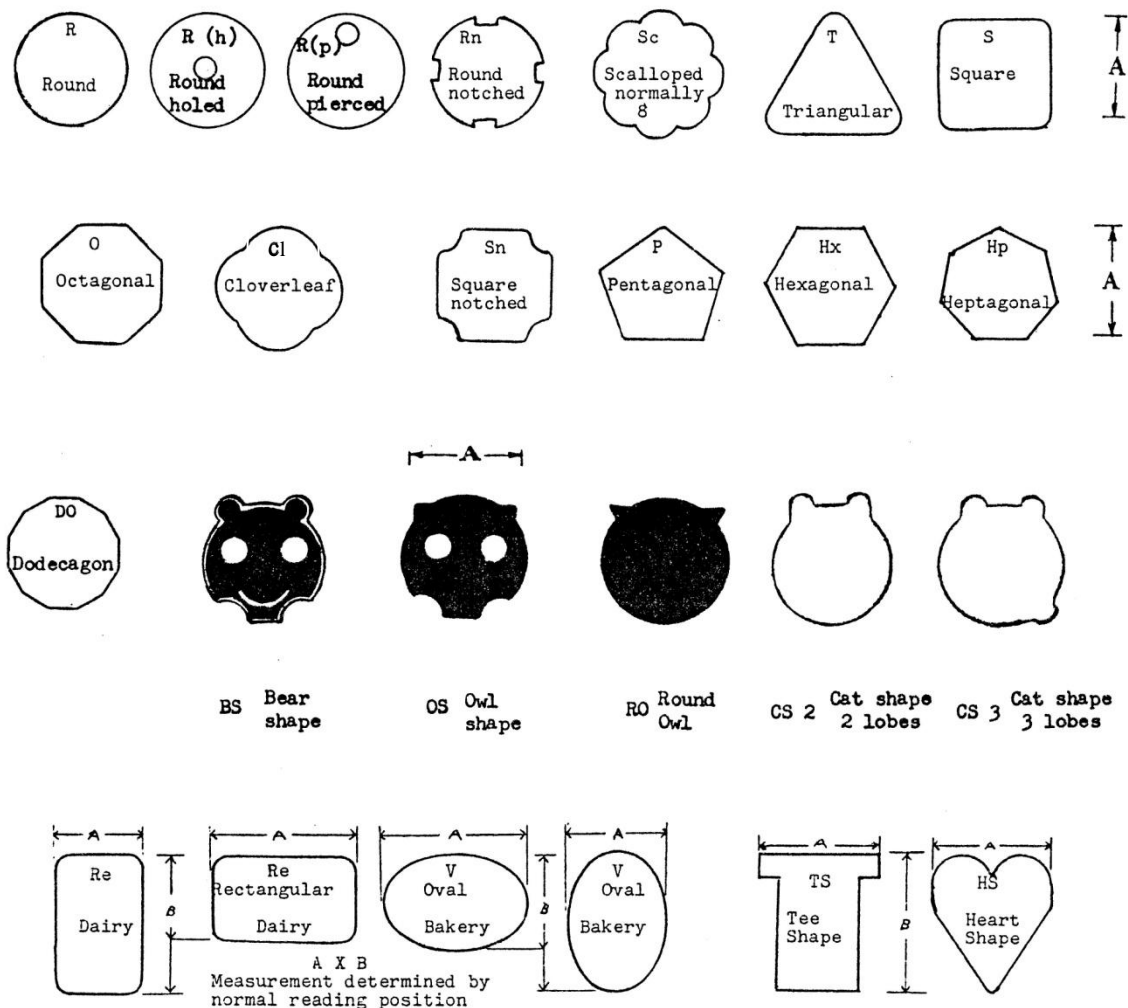

R	Round
R(h)	Round (centre hole)
R(p)	Round (hole other than centre)
R(pv)	Round (hole other than centre – oval shaped)
R(n)	Round (notched)
Sc	Scalloped (followed by number of scallops)
T	Triangular (3 sided)
S	Square (4 sided)
O	Octagonal (8 sided)

Cl	Cloverleaf
Sn	Square (notched)
P	Pentagonal (5 sided)
Hx	Hexagonal (6 sided)
Hp	Heptagonal (7 sided)
DO	Dodecagon (9 sided)
De	Decagon (10 sided)
He	Hendecagon (11 sided)
BS	Bear shape

OS	Owl shape
RO	Round owl shape
CS 2	Cat shape 2 lobes
CS 3	Cat shape 3 lobes
Re	Rectangular (see Note: 2) (4 sided)
V	Oval (see Note: 2)
TS	Tee Shape
HS	Heart Shape

- Note: 1 – Holes, piercing and notches apply to any shape where present.
 2 – Measurement determined by normal reading position (see sketches on page xi of book).
 3 – Dimensions are generally to the nearest half millimetre (25.4 mm = 1.0 inch). As different measuring techniques were used by different individuals, i.e. ruler v/s caliper, there are differences. A half millimetre difference should therefore not be the only determining factor in deciding that your token is different than those listed.

SHAPES

EXAMPLES (from page xi)

- “1. *B R 24 (h) R4 (amusement)* *Brass – Round – Size 24 mm. – Centre hole –
Rarity 4 – Used in amusement devices.*

2. *Pbu/w Sc10 31 (p)* *Plastic, blue with white lettering – Scalloped
with 10 lobes rather than the normal 8 –
Size 31 mm. – Pierced with an off-centre hole.*

3. *Pw/k//Pbu/w R 38 (drink)* *Laminated plastic, white with black lettering on
the obv. and blue with white lettering on the
rev. – Round – Size 38 mm. – Used by the issuer
in the sale of refreshments.”*

“The colour of the lettering on plastic tokens has been given as this is now the only means of distinguishing the various issues of some tokens. The problem arises from the use of a standard set-up for some types of tokens and in others from a sample of an earlier issue being followed very closely.” “The frequent washing of dairy tokens in boiling water tends to remove the lettering and in some cases even changes the colour of some tokens.”

Additional notes on colour: – a problem that occurs with plastic tokens is the subtle variations that occur in the colour of both the token and the lettering. Through normal wear, and sometimes the inadvertent trip through the washing machine, colour changes on tokens are a normal occurrence. There are the extremes in colour variations like those from Edmonton’s McBain Camera (see Don Stewart’s ED570 on Page 117) to the subtle changes found on Royal Canadian Legion plastic drink tokens where under some light the lettering appears gold and under other lighting silver. Often during the manufacturing process a new stamp will produce wide bold lettering but after a period of time the printing becomes narrower and fainter. Token collectors should keep this in mind when deciding if they have an unlisted token or just a newer or older rendition of the listed token. We know that some of the tokens in this list suffer from this problem. Also note that the Royal Canadian Legion plastic drink tokens do come with both gold and silver lettering. Having new tokens, one of each colour, side by side for comparison will illustrate this point.

RARITY SCALE (from page xii)

R10	one known
R9	two known
R8	3 to 5 known
R7	6 to 10 known
R6	11 to 20 known

R5	21 to 30 known
R4	31 to 40 known
R3	over 40 known
R2	obsolete but not destroyed
R1	currently in use

“The rarity values given to old metal tokens reflect the numbers known to the writer. Others probably exist and over time the rarity value may be lowered as new finds become known. No rarity values have been given to modern metal tokens nor to plastic tokens but experience indicates that there will prove to be many rarities in these groups.”

Note: Some of the ‘Rarity Values’ have been changed in this listing compared to what is indicated in *Alberta Trade Tokens* to reflect the most current information available. Each individual will have to decide if they wish to mark their book up to match this latest information.

Maverick Locator (portions from pages 260 -262)

Generally the maverick tokens listed below are tokens that do not have the city or town named on them, and in most cases, do not indicate that they are from Alberta. For a comprehensive list of cart token mavericks refer to the separate cart token document as only a small number of them are listed here.

Corrections And Updates To “Alberta Trade Tokens – by Donald M. Stewart”

The following are updates provided either by Donald Stewart or are observations made by the many collectors who have been using this superb document since its publication in 1987.

- Page xi- The picture of the “Cloverleaf” should have a ‘Cl’ rather than just the ‘C’.
- Page 4- -5000a’ description should read “The head office is located at St. Jacobs, Ont. They acquired Link Hardware Stores in Western Canada on January 1, 1981.”
- Page 6- ‘-6700a’ should be ‘WM’ as this piece is not magnetic which ‘N’ is.
‘-6700c’ should be ‘NBS’ as indicated in Sherritt Mint reports.
‘-7250a’ add the word ‘Bifacial’.
- Page 10- ‘ACME –A200’ should be ‘-A100’ as ‘AIRDRIE’ is also ‘-A200’.
- Page 15- ‘BASHAW’ ‘-285’ should be ‘-B285’.
- Page 21- ‘B740c’ should be ‘Pg/k’ instead of the ‘Pg/r’ as indicated.
- Page 22- ‘BON ACCORD’ image ‘i’ should be labeled ‘j’ and image ‘j’ should be labeled ‘i’.
- Page 29- ‘-CA0360b’ dimensions should be ‘31½ x 19’.
- Page 31- ‘-CA0600a & b Alexander Cigar Store’ – it is believed that there is only one variety of this token and that any variations appear to be due to die filling and wear especially with the denticles.
- Page 39- ‘-CA2340b’ dimension should be shown as ‘37’ not ‘42’.
‘-CA2400a’ and ‘b’ dimensions should be shown as ‘38’ not ‘33’.
‘Christ’s Cafe’ should read see ‘CA2820’.
‘-CA2460a’ should read ‘Hx’ not just ‘H’.
- Page 43- ‘-CA3240c and d’ images should be switched to match the descriptions given.
- Page 49- ‘-CA440 ILLUSIONS GAME CENTER’ to match the token the correct spelling is ‘CENTRE’.
- Page 71- ‘-CA8700 TRAFTON’S CANDY MILL is an R9 token.
- Page 76- ‘-CA9380 THE WESTWIND CLUB’ should be changed to number ‘-CA9440’ as ‘-CA9380’ is also used for the ‘UNITED SERVICES CLUB’.
- Page 89- ‘-C605a Pc/k’ – should be ‘Po/k’ as ‘c’ is not a designated colour.
- Page 92- ‘-C710a WILSON BROS. DAIRY’ is an R9 token.
- Page 94- ‘-C815a’ – as this token is not ‘C’ – Celluloid it should be changed to ‘Cu’ – Copper.
- Page 95- ‘-C875b’ should be shown as ‘R’ to match the image not ‘O’ as indicated.
The town title for ‘CONSORT’ should be moved above ‘-C905’ as ‘ANDERSON BROS.’ is from Consort not Coleman.

‘-C905e, A’ should be shown as B as this token is brass.
- Page 100- ‘-D765a’ image should be labeled ‘b’ and ‘b’ image should be labeled ‘a’ to match the descriptions of the hole.

- Page 102- 'D840b' should be marked as a 'bifacial' token.
- Page 120- 'ED640u, v, y and z' should be changed to 'Pw/k' from the indicated 'Py/k'.
- Page 125- 'ED700x' image should be labeled 'y' and 'y' should be labeled 'x' to match the the descriptions.
- Page 137- 'F375c & d' dimensions should be shown as '37½' not the '40 as indicated.
- Page 145- 'G550b' image should be labeled 'c' and 'b' labeled 'c' to match the tokens and the descriptions.
- Page 150- *Mod* 'H75a' dimensions should be shown as '31½x19'.
- Page 158- 'H850a' should be changed to 'Pr/w' from the indicated 'Pw/r'.
Mod 'H900b' should be changed to 'Pg/w' from the indicated 'Pr/w'.and 'H900c' should be changed to 'Pr/w' from the indicated 'Pg/w' to match the actual tokens.
- Page 168- 'Leduc -L160a' add the letter 'a' to the "50th ANNIVERSARY" illustration
- Page 168- 'Lenoria -L200a' is incorrect as the community is 'Linaria' and this token has been renumbered to 'L809a'.
- Page 186- 'M600e' shape should be shown as 'R' to match the image not 'S' as indicated.
- Page 190- "Namao N10g & j" add "uniface".
- Page 192- 'O70a' description should be 'Pw/bu' and 'b' should be 'Pw/pu' to match the actual tokens.
- Page 195- 'P350b Hudson's Bay Company' – this token is a counterfeit and should be deleted from "Alberta Trade Tokens".
- Page 196- 'P375c' add the letter 'c' to the 10¢ illustration.
 'P400b' dimension should be '40' not '42' as shown.
- Page 199- 'P600a' dimension should be '50½' not '45' as shown.
- Page 209- 'R380a' should be 'Pr/go' not 'Pr/w'.
- Page 211- 'R680i' should be 'R680d' and the 'c' image should be labeled 'd' and 'd' labeled 'c'.
 Note: some books do not have 'i' but have the proper 'd'.
- Page 212- 'R700b & d' – change the letter for the 'b' description to 'd' and change the letter for the 'd' description to 'b'.
- Page 213- The title 'ROCKY MOUNTAIN HOUSE' should be added above token '-R820 KINSMEN'.
- Page 226- The title 'STETTLER' should be added above token '-S470 B.P.O.E. #92'.
- Page 230- 'S755a' image should be labeled 'b' and 'b' should be labeled 'a' to match the description.
- Page 242- 'W180b' – description should read 'Po/k' not the 'Pc/k' as shown.
- Page 246- 'W650g' image should be labeled 'h' and 'h' should be labeled 'g' to match the description.
- Page 250- '6100a JONES' BETTER GAMES' – it is believed that this token is not aluminum but is 'Pgo'.
 'Blackie' – replace 'west' with 'east'.

- Page 251- ‘-CA4920o’ image should be labeled ‘p’ and ‘p’ labeled ‘o’ to match the description.
- Page 253- The title ‘CARMANGAY’ should be added above token ‘-C395 CARMANGAY CURLING CLUB’. ‘-C630 ROYAL CANADIAN LEGION #184’ should be numbered ‘-C625’ as ‘-C630’ is already used on Page 90.
- Page 254- ‘-ED140 THE CORONA HOTEL’ should be numbered ‘-ED135’ as ‘-ED140’ is already used on Page 108.
- Page 255- ‘-ED530 MAPLE CITY DAIRY’ should be numbered ‘-ED525’ as ‘-ED530’ is already used on Page 116.
- Page 256- ‘-H585 KINSMEN’ should be numbered ‘-H560’ to keep it in the correct order in the High River listing.
- Page 258- ‘-O90a ORION COMMUNITY ASSOCIATION’ dimension should be ‘27’ instead of ‘28½’ as shown.
- Page 259- ‘-MAV 5 H. BROOKS’ – this token has been identified as being from Gainsborough, Saskatchewan (taken from a 1909 Directory).
- ‘-MAV 14 O. SORUM’ – this token has been identified as being from Minnesota.
