APRIL - 1976

ISSUE NUMBER 16

THE "CANADAWIDE" PARKING TOKENS

By C.E. Parker CATC #56

Canadawide Parking Services have their Head Office in Montreal, Que. Their tokens are listed in Feisel's "Catalogue of Parking Tokens" as well as in several of the Provincial listings that have been published. Since it is known that tokens are shipped between the various locations operated by Canadawide in different parts of Canada, it is not surprising that some of their tokens are listed in more than one Province. It is surprising, to me at least, that more have not turned up in those other cities.

In Winnipeg, Canadawide took over the operation of Wilaco Autoparks and used their tokens at first, then gradually introduced the many varieties of their own.

The Wilaco tokens taken over were:

Obv.: Wilaco/Autoparks/Winnipeg/Canada
Rev.: Validation/Parking/Token

It was issued in brass (two varieties) and in aluminum. Fiesel's distinction between the two brass varieties is that the diagonal lines behind "Wilaco" are (a) strong (b) weak. Stewart's distinction is (a) bevelled rim (b) flat rim.

It would appear that, in Montreal, Canadawide took over the operation of Silverdale Parking. Their tokens were:

Obv.: Silverdale/Arrow/Parking
Rev.: Park with pleasure/Head Office/908 Belmont/
Montreal/861 9661

Bowman lists this token in white metal while Feisel does not. To illustrate what I said earlier about tokens being moved around, I received a Silverdale token at one of the Winnipeg Canadawide locations.

Canadawide of course issued its own tokens and the first of these appears to have been:

Obv.: Token/Canadawide/Parking Services
Rev.: Jeton/Les Services de Stationnement/Canadawide

This token is listed by Feisel as struck in bronze, brass and aluminum. On the other hand, Bowman lists it as struck in white metal and copper! I have obtained two varieties of the brass token. The first has large beads around the rim of both sides. The second variety has more and smaller beading on the obverse (English) side but the reverse is the same. The second variety which I call 3620 cb has not been listed by Feisel.

Due to an apparent shortage of aluminum tokens, Canadawide ordered a supply of "Stock Tokens" from Automatic Parking Devices (Canada) Limited of Windsor, Ont. When I wrote to this company, their brief reply was that they had made up one order only for one customer. This token is:

Obv.: Automatic Parking/Devices/(Canada) Limited
Rev.: Good for/Parking/only

It has not yet been listed by Feisel.

For those who are now confused, the following is a list, in order of mention, of the tokens listed with Feisel and Provincial numbers where applicable:

| | | <u>Feisel</u> | <u>Man.</u> | <u>Sask.</u> | <u>Que.</u> |
|-----------------------|---------|---------------|-------------|--------------|-------------|
| Wilaco | B -R-25 | Man 3900 Aa) | | | |
| | | Man 3900 Ab) | 6840a | | |
| | A -R-25 | Man 3900B | 6840b | | |
| Silverdale | B -R-25 | Que 3620 A | | | 3233a |
| | W -R-25 | N/L | | | 3233b |
| Canadawide | Bz-R-25 | Que 3620 B | | | |
| | W -R-25 | N/L | | | 3230a |
| | C -R-25 | N/L | | | 3230b |
| | B -R-25 | Que 3620 Ca) | | | |
| | | N/L Cb) | 4830a | | |
| | A -R-25 | Que 3620 D | 4830b | 4930n | |
| A.P.D. | A -R-26 | MSPT 3052 A | 4595a | | |
| Canadawide (Arrow) | B -R-25 | N/L | 4830c | | |
| C.P.E.L. | B -R-25 | N/L | 4845a | | |

It would appear to me that more of the varieties should have made their appearance in those other cities that have Canadawide locations. Token collectors in those cities should watch for all of these varieties.

When Canadawide entered the Winnipeg market, some lot owners switched to a newly formed local company, Kodiak Parking Services Limited. This company has issued no tokens.

Another local company, Western Auto Park Ltd. operates out of the Lombard Garage and in addition to that location, operates a few downtown lots. They use cardboard tickets, good for one-half hour (pink) and good for one hour (yellow).

NORTHLAND BAKING COMPANY
OF SOUTH PORCUPINE AND TIMMINS, ONTARIO

By D.J. Smith, CATC #62

The Northland Baking Company was established by Joe Gecan, John Kaps and Frank Krizmanich at 63 Kirby Avenue in Timmins in 1933. After a few years at this location in Timmins, the partners rented the T. Wilson Bakery (1) in South Porcupine. Mr. Gecan converted the basement of his own residence at 14 Cecil Avenue, South Porcupine, into a bake shop, and soon moved the business to this location.

Shortly after the war, Gecan, a hard working Yugoslavian immigrant, bought out his partners' interest in the business and operated the bakery on his own, until the early 1950's, when he sold to Walter Renken. The business then moved to Timmins, and located in rented premises. One of Renken's bakers, S. Burger, bought the business from his employer and moved back to the Cecil Avenue location in South Porcupine. In the late 1960's, Burger sold the Bakery and the building, to the Nadon Family, and returned to his native Germany. Again the Bakery moved to Timmins, with the name now changed to "Timmins Northland Bakery". The Bakery continues to serve the residents of the Porcupine with "FANTASTIC" Bread from recently expanded facilities at 119 Wilson Avenue, Timmins.

During the years when the Bakery was operated by J. Gecan and partners, a small square aluminum token was used for the purchase of one loaf of bread. The token is described as:

NORTHLAND/+/BAKING CO.
GOOD FOR/1/LOAF OF BREAD

Aluminum: square: 23mm

(1) According to the 1938 "Northern Telephone Company"

Directory, T. Wilson was then doing business under the name of "Wilson's Bakery". However, it is purported that at one time, Wilson had operated a Bakery in South Porcupine, under the name, "Golden North Bakery" and was the issuer of the rectangular aluminum tokens bearing this name.

Acknowledgements

The writer wishes to thank Mrs. Mahon of South Porcupine, daughter of Mr. Gecan, for valuable information supplied, and to acknowledge information previously received from the late Gordon Brown, retired O.N.R. Station Master, of South Porcupine.

THE ROHMER SERVICE STATION TOKEN

By Ken Palmer CATC #C-50

Bowman's "Trade Tokens of Ontario" lists a token under Hamilton No.464-S-A described as follows:

Obv.: Rohmer Service/Premium/Token/Stations Limited.
Rev.: H. Barnard Hamilton Can. (Small letters)

It is aluminum, oval and measures 34 x 27.

This is an example of the numerous premium tokens issued by gas stations in the Hamilton, Brantford, Niagara area in the 1930's. Most of these were made by the H. Bernard firm, but a few bear the name of the A.C.Gibson Co., Buffalo, N.Y.

The Rohmer Service Stations Limited were owned by Ernest H. Rohmer. He had established a chain of eleven stations by 1939, but only one was left by the end of World War II. This one, located at 15 Wentworth St.N. was disposed of in 1973.

"Ernie" Rohmer achieved considerable success as an athlete. He played on the 1930 Grey Cup winning Tiger Football Team and also was coach and player on the Tiger Lacrosse Team that won the Mann Cup in 1933.

He was the father of noted Toronto author - lawyer, Richard Rohmer. Mr. Rohmer died in 1975 at Jensen Beach, Florida at the age of 72.

DEAD AFTER 96 YEARS

By T. Leitch CATC #C-13

An old historical name in London is dead after 96 years at the corner of York and Richmond Streets. The old seventy-room Grigg House has undergone extensive alterations and in the process has lost its name. The Grigg is gone and within its skeleton has appeared the Clifton Arms. There have been numerous owners of the hotel but it has always retained its name which it derived from its original owner, Samuel Grigg.

Samuel Grigg was born just outside of Montreal on February 16, 1847; when he was five years old he moved to Clinton where his father Isaac Grigg had purchased a blacksmith shop. At the age of twelve Samuel was employed by Thomas Lloyd who taught him the hotel business. Grigg first came to London in 1860 but went to Seaforth three years later. He soon returned to London and by 1867 had engaged in the hotel and livery stable business. Grigg was owner of a hotel called the "American House", located on the south-west corner of York and Richmond Streets. He sold the American House in 1879 to Cruickshanks and McDonald and moved to his present location on September 20, 1879. The Grigg House was a hotel, tavern and livery stable and Samuel Grigg was sole proprietor until his brother, Thomas K. Grigg, joined him in 1887. He was in business until 1892 when he sold the hotel to Edward Horseman. Grigg was a respected business man, and also a family man with five children, four from his first marriage and one from the latter. He also owned farmland in the northwest part of Canada and in London he was a member of the Royal Arch Masons.

There are a number of different Grigg House tokens in a variety of metals and sizes. There are two denominations, a five and a ten cent uniface token. One difference worth noting is that some pieces have the inscription "Grigg House" while others have "Griggs House". Most of the tokens have an incused legend which appears to be struck on prepared planchets; this produced a number of tokens with small varieties.

ANNIVERSARY TOKENS and MEDALS of MANITOBA
(First of a Series)

By C.E. Parker, CATC #56

MINNEDOSA

In 1958 the town of Minnedosa celebrated its 75th Anniversary. On this occasion a token was issued as follows:

Obv.: Minnedosa/1883/1958/75th Anniversary
Rev.: Good for 50¢/Minnedosa/Stores/to July 31, 1958
(Stewart No.2580(a) - Bz-R-32)

One of the earliest written records of this area comes from the diary of one of the pioneer settlers, Mr. Henry Rose, who wrote: "On the ninth day of April, 1879, I first looked up and down the valley of the Little Saskatchewan River at what was known as "Tanner's Crossing" at my right hand a few rods away stood the most conspicuous dwelling, and adjoining it the only real Government building there ... Her Majesty's Post Office".

"Tanner's Crossing" was named after John Tanner, a one-armed "half-breed" who first established a trading post at that point and later kept the first Post Office. "Tanner's Crossing" was known as the north-west crossing, although there had been other crossings both above and below Tanner's Crossing, which at the time of Mr. Rose's arrival was covered by only two feet of water.

Tanner's Crossing in the early 1880's was the next real settlement west of Third Crossing (later renamed Palestine and now known as Gladstone) and until the first boundary extension of Manitoba, which took place on March 21, 1881, the area was a part of the North-West Territories. It was under the control of Governor Laird of Battleford. One of the early settlers suggested in the early 1880's that the name of the town be "Minnedosa" although maps drawn in 1883 still showed "Tanner's Crossing". In the Sioux language Minnedosa means "Flowing Water", and so the town became known by that name.

The "swearing-in" of the first council took place in the Saskatchewan House on April 4, 1883 and it was this event that the town celebrated 75 years later in 1958.

BANKS: For a number of years only private individuals or companies handled the banking for the settlers. These "Private Banks" usually only took deposits from customers and held the money until required. The first of these was Wallace Ramsay & Co. They were followed by Alex Stewart who, it is said, cast some doubt on the private banking system by leaving town one

night with some of his depositors' money! The last private bank to operate in Minnedosa was under the management of V.H. Pickering.

The first Chartered Bank to open a branch in Minnedosa was the Commercial Bank of Manitoba which was in existence between 1885 and 1893. It was followed shortly thereafter by The Union Bank of Canada.

FRATERNAL ORGANIZATIONS: As in most early settlements, the churches played an important role in community life. Any void was filled by numerous fraternal and benevolent societies such as Oddfellows, Rotary Club and similar organizations as well as the Ancient Order of United Workmen.

The Masonic Grand Lodge of Manitoba granted a charter to the Prince of Wales Lodge, Minnedosa on November 17, 1880. It was Lodge No.14.

The Minnedosa Loyal Orange Lodge No.1505 was issued its warrant on December 26, 1881.

Minnedosa presently has a population of about 2800 and has the municipal office for the Municipality of Odanah. There are no other towns or villages in that municipality of 144 square miles. It is slightly over 30 miles north of Brandon on Highway 10.

REF.: "Minnedosa Memories", a compilation, M'dosa, 1958.

NOTE: The official 1976 Provincial Highway maps are provided with this issue through the courtesy of the Department of Tourism, Recreation and Cultural Affairs, Hon. Rene Toupin, Minister. They will be helpful in locating place names in this article and others to follow.

EDITOR'S NOTE: Mr. Parker has thoughtfully provided the additional postage required by the enclosure of the Manitoba maps with this issue of the Canadian Token.

THE W.E. TUNIS TOKEN OF CLIFTON, C.W.

Fred Bowman's "Trade Tokens of Ontario" lists an American Civil War token under Clifton. It is doubtful if many Canadian collectors are familiar with this token and its history.

David Gladfelter recently sent us a copy of an article by Clifton A. Temple titled "The International Token of W.E. Tunis" which appeared in a 1972 issue of the Civil War Token Collector's Journal. Additional copies have been made and one is enclosed with each copy of this issue. Our thanks to David for bringing this interesting article to our attention.

A wealth of historical information is available on the Niagara area and particularly on the villages of Clifton, Elgin, Queenston, Chippawa, Niagara (Newark) and Niagara Falls (South).

The village of Elgin (named in honor of Lord Elgin) sprang up at the eastern terminus of the Great Western Railway during the construction of the suspension bridge over the Niagara River. In this period of the early 1850's the adjoining village of Clifton was also experiencing rapid growth.

In 1856 the two villages amalgamated to form the Town of Clifton which was incorporated on June 19 with a population of 2000. The new town boasted fourteen grocery stores and twenty saloons and hotels including the famous Clifton House. It was important as the eastern terminus of the Great Western Railway which employed most of its citizens. In 1881 the name of the town of Clifton was changed to the town of Niagara Falls by special Act of Parliament. The population at that time was 2623.

One of the most interesting sources of information is Tunis's "Guide to Niagara" published in 1856, probably when he was carrying on a book store as stated in Mr. Temple's article. This guide book comprising 140 pages contains several fold-in maps of the area and views of the Falls, the river and the suspension bridge.

The full title of the book is "Tunis's Topographical and Pictorial Guide to Niagara containing, also, a description of the route through Canada, and the Great Northern Route, from Niagara Falls to Montreal, Boston, and Saratoga Springs. Also, full and accurate tables of distances, on all railroads to and from Niagara Falls. W.E. Tunis, Publisher, 1856". It is also noted that it was "Entered according to Act of Congress, in the year 1855, by W.E. Tunis, in the Clerk's Office of the district court for the Northern/District of New York/J. & C.E. Felton, Sterrotypers".

by Clifton A. Temple

THE INTERNATIONAL TOKEN OF W.E. TUNIS

It is not generally known that the Civil War Token series contains an international storecard. The token of William E. Tunis, a Detroit newspaper and periodical distributor, can make a claim to that distinction, since the location of the business is given on the token (Mich. 225-CF) as "Detroit, Clifton, C. W., and Milwaukee." The token is classified with those of Detroit by both Hetrich & Guttag and the Fulds.

The initials C. W. stand for Canada West, which was the name of the present Province of Ontario immediately before Confederation in 1867. The town then known as Clifton is now called Niagara Falls, Ontario. Tunis lived and worked in that area before coming to Detroit.

The Detroit Free Press of May 26, 1896, had a long article about Tunis, from which the following excerpts are quoted:

"William E. Tunis, who came here in 1857, introduced new and improved methods of (newspaper and periodical) distribution and soon revolutionized the trade in this city and state.

"He had been for several years in business at Niagara Falls, N.Y., where he carried on a book store and printing office and was one of the agents of Sinclair Tousey, the inventor of the railroad newspaper express system. In the firm of Ross & Tousey the former had the money and the latter the brains.

"Tousey had made arrangements with the New York publishers of newspapers and periodicals, and also with the railway express companies, and had appointed agents for the distribution of the

goods in the several states. Detroit was made the distributing point for the state of Michigan, and Tunis was the agent.

"His store and warehouse was a two-story wooden building on the north side of Larned Street, between Woodward Avenue and Bates Street, on the eastern corner of the alley.

"His corps of agents were five or six smart young lads, among them . . . Joseph A. Marsh, who had charge of the merchandise department and supervised the supplies of the 'candy butchers', who sold literature, fruit, etc., on the railroad trains."

Tunis's agents met the trains from New York in Windsor, Ontario, where they picked up the bulk newspapers and periodicals. En route by ferry from Windsor to Detroit across the Detroit River, along with passengers bound for points west, these agents sorted the publications and labeled them for distribution.

"In this way," the article continues, "the New York newspapers for the whole state for that day would be distributed in the few minutes occupied in crossing the river. On the Detroit side, at the depots of the Detroit & Milwaukee, and Michigan Central railroads, the trains were waiting for the transferred passengers. The bundles of papers were thrown into the express cars and the trains sped away."

Tunis also had distribution contracts for the Detroit newspapers, which were delivered in bulk to his store. There, during the wee hours of the morning, employees sorted and addressed bundles of papers which were taken to morning trains for delivery throughout Michigan.

Early in January, 1863, Tunis's news depot at No. 6 Larned Street burned, forcing him to relocate. The Detroit Free Press of January 8, 1863, said that "it is supposed that the fire originated in the upper part of the building, occupied by Pelgrim & Gray as a candy manufactory. It started in the furnace for boiling candy."

The following day's paper noted that Tunis "is again prepared to supply his customers with everything in his line. Until a more suitable place can be obtained, he has been kindly permitted to occupy a store on Jefferson Avenue, three doors from the corner of Bates Street. Country customers please address as formerly: W. E. Tunis, general news dealer, Detroit. All orders will receive prompt attention."

The relocation was temporary, as the notice shows, and Tunis soon moved his business to 153 Jefferson Avenue, one door east of Griswold Street. The Detroit Free Press of May 21, 1863, contained the following announcement:

"Messrs. W. E. Tunis & Co., news dealers, have recently perfected some improvements in their extensive establishment, which are deserving of notice. The rear of their store on Jefferson Avenue has been cut through in the shape of a letter-L, giving also a fine front on Griswold Street. This affords ample room for their business, and gives them besides one of the finest and most convenient stores in

the city. In addition to the large stock of papers, periodicals, and magazines, they also have a complete assortment of the newest and most popular books of the day, in addition to stationery and all those commodities which are usually found in a book store. It is designed to make this not only a first-class news depot, but also a first-class book store. Entrance either on Jefferson Avenue or Griswold Street."

Tunis took in a partner in 1872, the firm thereafter being known as Tunis & Parker. He died in 1876. After his death, according to the 1896 article, "Ross, Tousey, and others, who had organized the American News Co., of New York, a national body, formed the Detroit News Co., with Joseph A. Marsh as manager. The new company, of course, acquired the business of Mr. Tunis." It will be recalled that Marsh had previously worked as an agent of Tunis.

As yet, I have no information whether Tunis ever had a store either Milwaukee or Clifton. One of my thoughts, not yet substantiated, is that Tunis may have hired agents in these cities who operated news stands in the railroad stations. His store in Detroit was close to the depot of the Detroit & Milwaukee Railroad, as were as the depots of lines which ran through Canada from Detroit to Clifton, Buffalo, and other places.

I have no definite information on whether the Tunis cards circulated in Milwaukee and Clifton, although the possibility is strong. Tokens and foreign coins were widely used in Canada at that time. Also, there is a specimen of the Tunis card mounted with Civil War Tokens of Milwaukee merchants in the excellent collection displayed in the Milwaukee Public Museum.

Seven different varieties of this token are known, all having the same obverse, with three different reverse dies. Fuld Nos. 1041, 1042 and 1047. It exists in four metals, copper, brass, copper-nickel and zinc. All seven varieties are represented in my collection. The most common is rarity 6.

The tokens were struck in the shop of John Stanton of Cincinnati, the die sinker who made virtually all of the Detroit CWT.

We are much obliged to L. C. Hill, K. A. Palmer and Barry Uman for reporting these unlisted pieces.

FROM THE EDITOR:

If you haven't paid your 1976 dues by the time you read this, your account card has been placed in the "inactive" section, and this is the last issue of The Canadian Token you will receive until your 1976 dues are paid. After March 31, payments of \$6.00 are required, instead of the regular \$5.00 to re-instate your membership. Please remember that we do not send you a separate "Dues Notice". The "Notice of Dues" that appeared in the January issue and this reminder should be sufficient.

To switch to more pleasant subjects, we have received word from Ruth McQuade of the Ottawa Coin Club, who are sponsoring the C.N.A. Convention this year, that she has booked a room for our Annual Meeting. The time is 11.15 a.m., Saturday, July 10th, in the Salon Palladian. Our President promises he will make the business session as brief as possible, so that we will have plenty of time for informal discussion, time to become better acquainted and time, perhaps, to do a little "horse trading".

And, don't forget, this is election year. Nominations for President, Vice-President and Secretary-Treasurer should be in the hands of the Sec.Treas. not later than July 1st. Let us have some volunteers for these positions. The duties are neither onerous nor time consuming; and don't let the standing rule that each office holder must contribute at least one article a year hold you back. We just reminded Norm Wells about that, and he promised to produce by July.

We must never overlook the fact that it is you, the members, who contribute such fine articles, who send in news of new token finds and other interesting information that have made this a worthwhile organization. Also, a "thank you" should be given to those members who included with their dues cheques an extra few dollars donation, and to those who have included extra for postage, bank charges, etc. By practising a little old fashioned economy all around, we can assure you that there will be no increase in your dues next year, nor in the foreseeable future.

Don Smith, reporting from the far North, advises that the Municipality of Mattice-Val Cote is issuing a commemorative dollar for incorporation in 1975 and for their 1976 Winter Carnival (\$2.00 in nickel and \$16.50 in silver). He also stated that the numbers issued of the 1975 North Bay dollar were 35,000 in nickel, 135 in silver and none in gold.

Rick Ford has come up with a general store 1¢ due bill issued by W.G. Carruthers, Avening, Ont. Doug Ferguson has come up with a similar type token by G.W. Lankin, Utterson, Ont. Also, many new finds of Ontario advertising tokens have been reported by several members.
