~~Message from the Lieutenant Governor.~~

A Message came from his Honor the Lieutenant Governor, requiring the Attendance of the House in the Council Chamber, M.<sup>r</sup> Speaker with the House having attended accordingly, and being returned; M.<sup>r</sup> Speaker reported, that his Honor was pleased to make the following Speech to both Houses.

Gentlemen of the Council and House of Assembly.

~~His Honor's Speech.~~ p.152.

"The Business to come before you at this Time is so obvious, that it can only be requisite for me, to recommend "it. The Supplies necessary for the support of Government, "and for the Discharge of the Debt in which you are engaged, "will undoubtedly be the principal Object of Your Attention;

~~and~~

"and I need not, I think, offer any other Reasons, than  
"what will immediately occur to you, on the Consideration  
"of Matters of so much Importance. In the course of Your  
"Deliberations, the Lumber Trade, to Great Britain cannot  
"fail of engaging your attention to such Regulations, as  
"ought necessarily to be observed, by those who furnish that  
"Commodity; to prevent Complaints of Negligence or unfair  
"Dealings.

Resolved, That an address be presented to his Honor the Lieutenant Governor, setting forth, "That the House "having taken into Consideration the State of the Pro- "vincial Accounts and Revenues, find many Things that "demand immediate Redress, which they beg leave to lay "before his Honor, in full Confidence that He will pursue "every measure, that can tend to effect that Purpose.

"And that they beg leave to observe, that the Laws "relative to the Provincial Duties, have been much dis- "regarded in several Parts of this Province, by which the "Revenue has greatly suffered, and almost the whole of the "Duties received, has been collected upon the Trade and "Town of Halifax,

"That it has been found on the Examination of the

~~publick~~

"Publick Accounts, that some of the Officers of the Out-  
"ports have rendered Accounts of large Collections, which  
"have been swallowed up by very extraordinary and unwarran-  
"table charges of Salaries, &<sup>c</sup> particularly at Louisbourg  
"and Canso.

"That the Collector at Liverpool lately appointed,  
"Complains, that the Magistrates there, instead of assist-  
"ing him in his Duty, hold in Contempt the Laws, and that  
"the People there will not pay any Duties.

"That the Collectors at Barrington and Yarmouth, if  
"any, have not rendered any Account.

"That many very Considerable Debts remain outstanding,  
"and will be finally lost, if they are not immediately  
"secured.

10.1.2074  
"That the House most humble request his Honor will  
"please to appoint one or more members of the House of

Assembly

"Assembly on all audits of the publick Accounts, in Con-  
"junction with such Members of his Majesty's Council as may  
"be on such Service, and that no Accounts be allowed or paid  
"before they have passed such an Audit.

"That the House most earnestly intreat his Honor will  
"please to cause the Laws to be put into Execution, so that  
"the Revenue may be fully and equally collected, and that  
"such Officers as may be found delinquent, be displaced,  
"and caused to pay the Just Demands of Government.

208  
"That we are in a more particular manner obliged to  
"press these Matters, as our constituents are unable to  
"bear any New Tax, and that by such a Measure we might  
"loose some of the best and Most Valuable of our Settlers,  
"already too few to support Government unless fixed on  
"the strictest Plan of oeconomy.

"And that this appears still more obvious, when we

~~consider~~

"consider that his Majesty's Quit Rents are now demanded,  
"and if our Solicitations for its Application to the use  
"and service of the Province should not succeed, we have  
"the greatest Reason to fear the Burthen will be too great  
"for the People to bear in their present Circumstances.

The Collectors of Impost and Excise also laid before the House, by Order of his Excellency the Governor, an annual General Account of their Collections between the 1<sup>st</sup> July, 1773, and the 30<sup>th</sup> June, 1774, amounting to £2401. 17. 7.

Titles read.

And the Titles of the said Accounts were read,

referred to a Committee.

Ordered, that it be referred to M.<sup>r</sup> Day, M.<sup>r</sup> Tonge, M.<sup>r</sup> Bridge, & M.<sup>r</sup> Smith, to examine and state the said Accounts, and report thereon to the House.

. . . . .

Friday October 21<sup>st</sup> 1774.  
.....

M.<sup>r</sup> Day from the Committee to whom it was referred to examine the public Accounts reported, That the Committee had come to several Resolutions thereon, which he was directed to report to the House; and which he read in his Place, and afterwards delivered in at the Table, where the same were read, and are as follows;

That it is the Opinion of the Committee that there appears an Over-Charge in the Account of the Collectors of Impost and Excise at Halifax, for House-Rent, Firing, and an extraordinary Officer, which Charges were never allowed

by any Law, or Vote of this House, but on the Contrary were especially objected to, and resolved against. This Over-Charge having been continued from Time to Time is now arisen to the Sum of £140. 7. 5.

That it is the Opinion of the Committee, that a Charge made by the Collector of Canso, for his Services there as Chief Magistrate, and received accordingly, contrary to the Express Resolves of this House, should be esteemed as a Debt due to the Province, and should be recovered immediately.

p. 169. That it is the Opinion of the Committee, That large Sums are due to Government, Many of them long Standing, and that proper Measures have not been taken to recover the same.

That it is the Opinion of the Committee, that the Proceeds of the Fund set a-part for the support of the Light House, has (even with the aid of his Majesty's Bounty) been found insufficient to support the same, and as the Trade of

the

the Province is greatly reduced, and unable to support any additional Embarrassment, they offer as their Opinion, that his Excellency the Governor be requested to accept of the present Fund, which with the Allowance granted by his Majesty, may possibly with proper, and a different Management, be sufficient to support the said Light for the use of his Majesty's Ships. The Trade of the Province being so trifling, that the Continuation of the Light or not, cannot be esteemed an Object worthy of Attention.

p. 170.

That it is the Opinion of the Committee, and they do accordingly recommend to this House, that a Law be enacted for the More effectual and Speedy Recovery of Debts due to Government.

That it is the Opinion of the Committee, and they do accordingly recommend to this House, that a Committee be appointed by the Legislature of this Province, of ~~under~~

~~standing~~

understanding Persons, who with the Treasurer May direct a proper and uniform Method of Keeping the several Publick Accounts of the Province.

That it is the Opinion of the Committee, that the Several Officers concerned in the Collection of the Revenue, be obliged by Law, fully to execute their Duty by a Speedy Recovery of the Debts due to Government, and also to oblige them punctually to account with and pay their Ballances to the Treasurer at Certain and Stated Periods.

That it is the Opinion of the Committee, that if the Duties at all the Outports of this Province were farmed, it would More than double the present Revenue received from those Places.

The Committee also reported the State of the Accounts of the Collectors of Impost and Excise Duties at Halifax, and the State of the Account of the Province, as they

following Speech.

Gentlemen of the House of Assembly.

On

His Excellency's  
Speech.

"On my arrival in this Province upon the Inspection  
"of Your public Accounts, I found you so largely indebted, that  
"I did not think it probable you would have raised in years  
"a Sum sufficient to have discharged the whole; I therefore  
"recommend to your Deliberation, to consider of some per-  
"manent Fund that the Creditors of Government might not only  
"be assured of their annual Interest, but in convenient Time,  
"the total Extinguishment of the Debt.

p. 274.  
"How so infant a Colony could incur so great a  
"Debt, and what Advantages were supposed would be the Effect  
"of it, I am not at present informed, tho' I shall endeavour  
"to Search out, and make myself acquainted therewith; yet let  
"the Cause proceed from what it may, I find the General  
"Assemblies have by their Laws establish'd this Debt at least  
"upon a Supposition that it was Just.

"I am apprehensive therefore the Want of a Sufficient  
Support

"Support for the public Credit will create an Uneasiness  
"in the public Creditors which every Legislature ought by  
"all means to prevent.

The Funds already provided I shall endeavour that they  
"be duly collected, and applied as far as they will extend,  
"toward the Discharge of the grants you have made, and that  
"no further Expence shall be incurr'd but what the Most  
"urgent Necessity shall require.

*11.275.*  
"As the Season of the year has prevented so full an  
"Assembly as you Could have wished on this Occasion, I  
"must recommend to each of you in Your Recess, to consult  
"with your Constituents upon an Affair of so great an Import-  
"ance as the establishment of the Public Credit, that at your  
"next Meeting you may be prepared to pursue such Just Measures  
"as will fully effect it.

"The Opinion you have formed of me, and the Confidence

*you*

"you have placed in my Administration, gives me great Satis-  
"faction; and be assured that the Power I am vested with  
"shall be applied to no other Purpose than the Public Good."

My Lord

The Province of Nova Scotia labors under the load of a heavy Debt considering it in its present circumstances, which is the occasion of great uneasiness to the Improvers of Land on whom the weight must finally fall. How this Debt has been incurred and the circumstances attending it have but lately been known to me.

The Bounties and premiums given to the Lunenburg Inhabitants in the way they were managed were the principal Cause of incurring this Debt and the many consequent Difficulties.

In the year 1753 to encourage the cultivation of Land (which then seemed a plausible pretence) there were Bounties given to Colonists upon the produce of Hay, Grain Roots &c these Bounties were to be paid out of the growing Duties on

~~articles~~

*W. J. P.*  
Spirituous Liquors & The House of Assembly which made this law was composed principally of the Merchants of Halifax trading to Lunenburg and the principal Traders at Lunenburg - the only places from whence Bounties could be demanded - the Bounty on Hay was intended to be granted on such only as was actually produced upon Land cleared by the then present Inhabitants - and on the proof of the quantity and quality certified by a Justice of Peace the honest Farmer was to receive his money of the Treasurer of the Province - these Bounties and premiums did not amount to £500 - the first year - but such People who were of dishonest principles cut wild Hay wherever they chose on the Sea Coast and found no difficulty in obtaining Certificates by which means these Bounties or Premiums were increased in the course of a year or two to two or three thousand pounds per Annum this sum together with the necessary Contingent Expences of Government far exceeded

*W. J. P.*

the Funds appropriated for their payment.

*He says*

The greatest number of the persons who obtained those Certificates had been supplied with some necessaries and many Luxuries at an exorbitant advance by M. Francklin the present Lieutenant Governor and others connected with him to an unreasonable credit under their then circumstances in expectation of being paid from the public Treasury and of course became the voluntary Agents of their Debtors to solicit Government on the subject but finding the Funds inadequate to an immediate payment in specie pressed their poor Debtors to discharge their Debts and refused to take their Certificates as payment. They unable to extricate themselves threw themselves upon the Mercy and equity of their supposed Friends M. Francklin and others to whom they were indebted who from an Affected concern for their Distress consented to take their Certificates in Dis-charge of their Debts at very extravagant Discounts

*adding*

according to the different necessity of the Seller, some as I have been credibly informed at sixty per cent discount, Upon the full amount of which Government was influenced to allow by an Act of Legislature an Interest of six per centum per Annum afterwards the proprietors of those Certificates obtained from Government an Act to change them into negociable Treasurers Notes bearing a like Interest and under this change found Methods to pass them off at their full value but when they were generally dispersed the same persons refused to take them back in payments but at great Discounts.

These Measures continued till March 1764 when a New House of Assembly having been called composed of Additional Representatives from the new Settlements in the Province and those of the former Counties and Towns an Inquiry was made into these matters and finding the public Debt then accumulated to upwards of £15000 besides certificates not brought in and the

~~Sum~~

fund appropriated for the payment of this Debt falling far short of discharging even the Interest of it and Contingent Expenses of Government and the public Credit every day growing less. An Act was passed for discontinuing the Bounties and premiums and borrowing £2900 upon Notes of Hand of the Treasurer of the Province Negotiable bearing Interest at six per Centum per Annum - but not without the most violent opposition from <sup>r</sup> M. Franklin and his Party was the discontinuance of the Bounties passed. A Committee was also appointed to inquire into the Frauds which had been committed in obtaining the precedent Certificates but the same Person and Party found means to prevent any such Enquiry being made.

The Province Debt now amounted to upwards of Eighteen thousand pounds.

Until the year 1767 the Duties levied upon Spirituous Liquors were ten pence <sup>r</sup> Gallon Excise and five pence per

*1767*

Gallon Impost but an Act of Parliament being passed for encouraging the British Distillers of Malt Spirits upon which no Impost could be laid the Laws were altered.

The Distilleries of Nova Scotia being but two and both then in the hands of M.<sup>r</sup> Mauger and his Dependants - And M.<sup>r</sup> Francklin immediately dependant on and otherwise closely connected with him then in power in the Legislature, in Trade himself and influencing the whole Trade of the Province - ever attending to the alteration of the Revenue Acts by his Influence procured the alteration to pass for laying an Excise of One Shilling per Gallon on all spirituous Liquors and three pence per Gallon Impost upon all spirits Imported not from Great Britain, except those Imported from the West Indies & purchas'd with Sargos being at least two thirds of the produce or Manufactures of Nova Scotia.

In 1753 the Province was out of Debt and there appeared

to be £3000 in the Treasury, at this time the Province is  
£25000 in Debt and the Funds far unequal to Dis-charge the  
Annual Interest and small Contingencies of Government which  
are allowed by the Assembly - and this charge -altogether  
effected by the measures which M.<sup>r</sup> Francklin's Influence and  
that of his Party have had the address to procure the adoption  
of in the public Legislature there and to procure by their  
Agents in England His Majesty's Ministers to approve.

The Humble Address of the House of Assembly.

The

Address  
to the  
Governor.

"The House of Assembly having taken under their Con-  
"sideration, Your Excellency's Speech at the opening of this  
"Session, and particularly that Part, where you are pleased  
"to recommend to this House, their making Provision for the  
"Support of the Public Credit, the maintainance of the public  
"Officers, and such necessary Contingencies as may arise, and  
"as the Funds hitherto established have fallen greatly Short,  
"you are pleased to recommend to our Deliberation some  
"further expedient of a more certain nature, the Duties on  
"Spirituous Liquors depending in a great Measure upon  
"Contingencies, and also that we should have under Consider-  
"ation the Trade of the Province, which you are instructed  
"by our most Gracious Sovereign by every Measure to promote.

"In Conformity thereto, a Bill was prepared for laying  
"a Tax of one Farthing an Acre on all Lands granted in this  
"Province, for two Years and upwards, as one Expedient of

~~the~~

"Most certain nature, by which the House apprehend a  
"Revenue would arise of about £1500.(exclusive of about  
"2 or £300. which was appropriated for Payment of the  
"Representatives) which they proposed to apply as a sinking  
"Fund, to lighten the Burthen of the Province Debt, and  
"which would give a Credit to the Provincial or Treasurers  
"Notes that are depreciated near one half their Value.  
"When after long Deliberation on the Propriety of the said  
"Bill, they passed it in their House, and sent it to his  
"Majesty's Council for their Concurrence, where it remained  
"Several Days, and was then returned not agreed to.

"In Order therefore to acquit ourselves of a neglect  
"of that Attention due to Your Excellency's Recommendation,  
"we present you this Address, and beg leave at the same Time  
"to acquaint Your Excellency, that a Bill nearly of the same  
"Nature had passed both Houses after a Consideration of

~~Twenty~~

"Twenty three Days, in the Session of the Year, 1768, but  
"was negatived by Your Predecessor.

"It is with great Grief this House is obliged to remark  
"to Your Excellency the almost constant Opposition they  
"meet with from the Council, in their Endeavours to put the  
"Province on the respectable footing they earnestly wish  
"to see it appear in to the World. It would be taking up  
"too much of Your Excellency's time, to particularize the  
"Many Disputes between them and the Council, on this Subject,  
"but should you wish to be satisfied in these Matters, We  
"beg leave to referr Your Excellency to our printed Journals,  
"from the year 1765, in the Course of which Time, it will  
"be found, that this House was always ready to grant all  
"necessary Supplies, and restrain unnecessary Expences, as  
"will appear by many Savings made, and to which they with  
"great Difficulty obtained the Concurrence of the Council.

~~Your~~

"Your Excellency no doubt, will hear many Reasons  
"assigned for rejecting the Land Tax Bill, the House would  
"therefore beg to be heard before Your Excellency by a  
"Committee on that subject; hoping to give Your Excellency  
"Justifiable Reasons for their Proceedings in this particu-  
"lar and the whole of their Conduct."

a. Speech from the Throne: Gov. Recommends Attention to Preservation of Public Credit; Replies Thereto

Nova Scotia, Dec 11, 1775.

pp. 1-5.

Monday, June 12<sup>th</sup>. 1775.

Message  
from the  
Governor.

A Message from his Excellency the Governor requiring the Attendance of the House in the Council Chamber.

M.<sup>r</sup> Speaker and the House attended accordingly, and being returned.

M.<sup>r</sup> Speaker reported that the House had attended his Excellency in the Council Chamber, where his Excellency was pleased to make the following Speech to both Houses.

Gentlemen of the Council,  
and House of Representatives,

his Excellency's Speech.

"I have in Conformity to the Sense of the House of Representatives, convened the General Assembly, at the Season of the Year, they Judged would be the least prejudicial to their private Business, that you may have a free Consultation

"on the public Affairs, which requires your most serious  
"Deliberation, especially in those Measures which respect the  
"public Revenue, and have a tendency to preserve the public  
"Credit.

"I advised the House of Assembly at their last Session,  
"that they would consult with their Constituents, upon an  
"Affair of so Great Importance, and hope to meet them now  
"prepared, to pursue such Just Measures as will effect it.

"I have taken Care that the present Funds be applied  
"agreeable to the Directions of your Revenue Laws and Votes  
"of Assembly; so far as the Sums collected would extend,  
"and you will perceive by the Treasurer's Accounts which shall  
"be laid before you, that they are insufficient to Answer the  
"Demands on the Treasury.

"As the Support of the public Credit is become a very  
"interesting Affair, I beg leave to recommend it as an Object

~~XXXXXXXXXX~~

"worthy of your most serious attention, the Ways and Means to  
"encrease the Revenue so as to be the least burthensome to the  
"People must be the result of Your Determination.

"I have found it necessary (in Order to prevent any  
"undue Application of the public Monies, or neglect of Duty on  
"the part of those Persons instructed with the Management of  
"the Revenue, by Advice of Council) to appoint an Inspector  
"General over the several Collections, and you will find by  
"the Accounts the Advantage that has arisen therefrom; and I  
"hope you will Join with me in Opinion, that a proper and

May it please Your Excellency,

"We are too Sensible Sir, of the encumber'd State of  
"the Revenues of this Province and of the necessity for exert-

House Complains that J. Mauger Abused His Position, to the Financial

Enclosure in Letter of 10<sup>th</sup> January 1775

To His Excellency Francis Legge Esq.<sup>r</sup> Governor and  
Commander in Chief, in and over His Majesty's  
Province of Nova Scotia & & &

The Members of the House of Assembly most humbly beg  
leave to acquaint your Excellency, that during the Course of  
this Sessions, they passed an Act in Addition to an Act made  
in the Thirty second year of His late Majesty's Reign; intituled  
an Act for making Lands and Tenements liable to the Payment of  
Debts.

The Utility of this Act was so apparent and necessary,  
that there was not one dissenting voice against it in the House  
of Assembly. This Act they sent up to the Council for their  
Concurrence, and it has been returned not agreed to.

~~however~~

However irregular and unprecedented it may appear in this House to Address your Excellency with a Complaint against the Council of this Province, We are notwithstanding constrained to this measure from despair and reiterated practices of the like nature, where the real good of the Province did at any time interfere with the private Emolument, Ambitions views or vindictive practices of a certain Party. We shall beg leave to lay aside ambiguity and to Address your Excellency in the language of truth and plain dealing.

Joshua Manger Esq.<sup>r</sup> formerly an Inhabitant of this Country, but now Member of Parliament for Poole in Dorsetshire, being for some years Agent for the Assembly of this Province, did exert that influence which he acquired in consequence of being the Assembly's Agent, together with what other interest he might have, in laying a plan of Dominion for himself and Dependants, which in its consequences has become ruinous to the

~~Joshua Manger~~

Province.

The measures pursued by this Gentleman and his Adherents, could not have been materially injurious, had he not previously managed to get a number of his friends and dependants appointed Members of His Majesty's Council, and one of his Relations made our Lieu<sup>t</sup>. Governor.

*103*  
The almost exclusive Trade which that Gentleman and his Dependants have enjoyed in this Province, added to their influence in the Council, has so fully operated in the choice of Representatives that it was scarcely possible to carry any point against them. It would take up too much of your Excellency's time to enter into a minute detail of the Practices of this Gentleman and his Adherents, whereby they have involved this Province in a heavy load of Debt, and continue to obstruct every measure tending to the ease and happiness of the Subject.

We shall beg leave to relate a few known facts, and a

*little*

little enquiry, on the part of your Excellency, will convince you, that the charges are well founded.

To enable the Inhabitants of Lauenburg to pay M. Mauger<sup>r</sup>, and his friends some debts, and further to enable them to purchase goods, from that connection, the Legislature granted Bounties & Premiums on certain articles of produce. The Revenue set apart for this purpose, and to support the officers of Government, was raised by a Duty on Spirituous Liquors; This Duty Act was so framed, as to amount to a Monopoly of the articles taxed, which Monopoly has for a number of years, been principally enjoyed by M. Mauger<sup>r</sup>.

The Revenue having been found inadequate to the purposes for which it was appropriated, the General Assembly, did in the year 1758 new model the Act, and increase the Duty, in order to enlarge the Revenue but this Gentleman's Interest, with the Board of Trade, was such, that he procured an Order, that the Act should be Repealed, to the great detriment of the

~~seventy~~

Revenue, and the injury of the Trade of this Province.

The power exercised by M<sup>r</sup>. Manger's Agent in this Province, is so notorious, that even the Officers of Government, and of the Courts of Law, are Subjected to his will, and he has publicly insulted, and threatned the House of Assembly; It is distressing to this House, to enter into particulars, where individuals are concerned, your Excellency may on enquiry be satisfied, more at large of this truth.

The Bill now sent back from the Council, was of the greatest consequence to the welfare of this Province; A Law of this nature was universally wished for, both by Creditors and Debtors, it prevented the necessity of tedious litigations, practised by unhappy Debtors, to gain time, which in its consequences & Effects, were ruinous to both parties.

The almost total want of Specie, or any other medium of Exchange in this Country, renders such a Law peculiarly necessary

And whilst all Commerce, is principally transacted by barter, it is Oppressive to take away real Estates, at one, two, or three years purchase, for want of a legal medium; It is in vain, to invite new Inhabitants from abroad whilst those we already possess are made to hold their tenure with uncertainty.

Permit us, to remind your Excellency, that many of the Inhabitants of this Province are Subjects of His Majesty's European Dominions, are attached to Great Britain by every tie of Interest, and affection - very many of us, have served Our most Gracious Sovereign, in his Fleets & Armies; Our Lands were given to us, as a reward, for those Services; it certainly cannot be consistent with Our Good Kings wish, to have us given over to be plundered, and oppressed by a Commercial Monopoliser.

*Adm.*  
Imperium, in Imperio, is a Solecism in Politicks; The British Constitution abhors it; To remove it in this Province the House of Assembly most Humbly request your Excellency, to

*M. C.*

lay before His Majesty, the necessity of removing, from the Council of this Province, such Members, who have been appointed, at the instance of Joshua Manger Esq.<sup>r</sup> and also to appoint us Judges, who are not loaded with Debt, and thereby rendered unable from undue influence, by means of such their situation, of Administring Justice, with impartiality. -

That after several sittings & enquiries for Treasury  
Books & Papers, The Treasurer did declare to them that except  
the Counter Indentures of the Province Notes he had no Paper

prior to his appointment.

Then the Governor thought proper to put the following Questions to The Secretary of the Province Viz.<sup>t</sup>

*Q. 4*  
Q: Was any Examination ever made by Government of the Books & Papers belonging to the Treasury, or any representation made that any were wanting?

A: No -

Q: By whom & how was the present Treasurer appointed?

A: By Lieutenant Governor Francklin by Warrant.

Q: Who were his Sur<sup>e</sup>ties -

A: M.<sup>r</sup> Butler & M.<sup>r</sup> Fairbanks -

Then M.<sup>r</sup> Green the Treasurer was call'd in, to whom the following Questions were proposed Viz.<sup>t</sup>

Q: How long have you been Treasurer.

A: Since 16<sup>th</sup> of February 1768. -

Q: Did not you Act as Clerk? -

*Yes*

A: When my Father went to England he left M.<sup>r</sup> Waite his Deputy.  
I was then in England; when I return'd, I was appointed to  
Act in Conjunction with him -

Q: When you Acted in Conjunction were you not in possession of  
all the Books?

A: I never saw any old Books. New Accounts were open'd by  
M.<sup>r</sup> Waite.

Q: From what Books were the Ballances struck when you were  
appointed Treasurer?

A: The Ballance was Struck from Accounts laid before the Lieut-  
enant Governor & General Assembly.

Q: Was any Person present when the Ballance was paid over to you?

A: No person was present that I recollect.

Q: Did you not acquaint Government that the Books were wanting -

A: No -

Q: Then you never had any of those Books -

A: No.

Q: Did you never ask for them?

A: I never thought it my Duty to enquire.

M.<sup>r</sup> Morris one of the Auditors then declar'd that talking with M.<sup>r</sup> Green, he desir'd him to draw up an Abstract, or state of all payments & receipts of Money from the beginning, as it wou'd be satisfactory, to which M.<sup>r</sup> Green replied, that all the Accounts were nail'd up in Boxes, in order, according to the years. On which M.<sup>r</sup> Green being further Question'd, said, that searching the Chest in which he supposed the Accounts were, he found nothing but Glass & China.

M.<sup>r</sup> Butler a Member of the Council then declar'd,

That after the appointment of the present Treasurer he believ'd in 1768, he went to the late Treasurer, on private business, who told him that he had got his Vouchers ready for an Audit: & thereupon open'd a Bureau, & shewd him Bundles of Papers; which the then Treasurer said were ready for an

~~Secret~~

Audit, when his Health would permit -

And then on the Question, it was Agreed, that all Books & Papers in the Treasury, belong to the public. Also, that the Treasurer is bound by his Office, to preserve accounts of all receipts of Money & Vouchers for Payment.

It was then Order'd.

That the Treasurer be directed to make diligent and repeated Search, & enquiry, for all Books & Papers, which should have been & remain'd in the Office of Treasurer

Also that the Treasurer do immediately make a Return of all Books & Papers relating to the Receipts and payments of Monies, now in his Possession.

Q: Did you furnish this Account in June 1768.

A: Yes.

Q: From what Books, Accounts or Papers did you form the Account.

My Lord,

(N<sup>o</sup> 38)  
As the care & Inspection of the Public Monies, raised by Provincial Acts of the Assembly, had become very Interesting, & the great neglect hitherto in not attending to call the Officers, collecting the Duties to an Account, nor to any examination of the Treasurers Receipts & payments, I had therefore appointed Auditors to examine them, as I had Acquainted your Lordship in my Letter N<sup>o</sup>. 30 & of the Opposition they met with in my Subsequent Letter N<sup>o</sup>. 32. However they have been able to find, several Officers indebted, in very considerable Sums to the Crown, & upon such Representation, I have laid the same before his Majesty's Council, and upon their Advice, the

*Solicitor*

~~0612.~~

Sollicitor general was impowered to prosecute all Debts due to the Crown, in consequence of which several Actions have been commenced, against M.<sup>r</sup> John Newton & M.<sup>r</sup> Jonathan Binney, which were Tried at the last Supreme Court, & Verdicts found for the Crown, against them for the sum of £736. Currency. It was supposed, that thro' their influence, among the common people no Just Verdict could have been obtained, but a Special Jury was Summoned on this occasion of the most credible of the Inhabitants, & after very long Trials, a verdict in favour of the Crown was found by them.

*1713.* The Sollicitor General after these Trials having discovered, that many Concealments had been made of the public Money which could not be fully proved, but in the Chancery side of a Court of Exchequer, applied to me, to know what power & Authority I had to call & Establish such a Court, which he Affirmed under the present Circumstances of the public Funds, was more immediately necessary at this time.

*1713.*

Having therefore Examined my Instructions, I found by the 26<sup>th</sup> Instruction, that where it was necessary, "that "the Crown Rights & dues be preserved & Recovered, & that "Speedy & effectual Justice, be administered in all cases "relating to our Revenue," I was thereby empowered to take care, that a Court of Exchequer be called, And as I thought it necessary especially at this time, I laid the same before his Majesty's Council, who advised that the matter should be referred to the consideration of the Judges of the Supreme Court for their opinion, upon such reasons as the Sollicitor General should lay before them, And I have the Honour to inclose to your Lordship<sup>x</sup> his reasons & their Report thereon, it was apprehended by his Majestys Council, that the 27<sup>th</sup> Instruction opperated against the 26<sup>th</sup> Because thereby I am Strictly forbid, not to erect any new Court or Office of Judicature.

~~June 1775~~

To the Kings, Most Excellent Majesty, the Lords Spiritual, and Temporal, and the Commons of Great Britain, in Parliament Assembled.

The Address, Petition, and Memorial of the Representatives of the Freeholders of the Province, of Nova Scotia, in General Assembly.

Your Loyal and ever dutifull House of Assembly of the province of Nova Scotia, most humbly beg Leave to Address our Gracious Sovereign, and both Houses of Parliament, at this dreadful, and alarming Crisis, when civil discord, and its melancholy Consequences are impending over all British America.

~~1775~~

Actuated by the Warmest ties of duty, and affection

~~1775~~

to the person and Family of our most Gracious Sovereign,  
animated with the firmest attachment to the Mother Country,  
zealous to support her power and consequence, over all the  
British Dominions, and dreading a Separation from her Govern-  
ment, and protection, as the greatest political evil which  
can befall us, or our posterity.

*W. J. S.*  
Influenced by the Principles of humanity and the Just  
rights of mankind in Civil Society, we tremble, at the gloomy  
prospect before us, We feel for our Mother Country of which  
many of us are natives, we feel for the British American Race,  
once the Most Loyall, Virtuous, and happy of mankind ;  
Animated with such principles may we not approach the Supreme  
Legislature of the British Empire, and as dutifull Children of  
Just and indulgent parents, may we not most humbly solicit for  
such Regulations, as we conceive most likely to preserve the  
Inhabitants of this province, in duty and allegiance to our

*C. J. S.*

King, in rendering permanent their connection with, and dependance on the Supreme Legislature, of Great Britain, and preserving inviolably to us, and our Posterity the Just rights of men in Civil Society.

We are fully sensible, that we have no right to pray for redress of grievances to request privileges or Regulations unless we Acknowledge your right over us, Therefore we the Representatives of the Freeholders of the province of Nova Scotia, do unanimously, most humbly acknowledge our Gracious Sovereign, George the third, King of Great Britain, the Lords Spiritual and Temporal, and the Commons of Great Britain in Parliament Assembled, to be the Supreme Legislature of this province, and of all the British Dominions, and that it is our indispensable Duty to pay a due proportion of the Expence of this great Empire.

Having thus as Obedient Subjects acknowledged our duty

to

to our King, and our willing Submission to y<sup>e</sup>. Supreme Legis-  
lature of the British Empire, we humbly request the right of  
being heard in Respect to our greivances, or wishes, and as  
our proceedings in this Assembly may possibly have some influ-  
ence, with other Assemblies in America, We humbly hope it will  
not seem presuming if we enter on the Subject.

We humbly conceive it will be necessary to the peace  
and happiness of the British Empire, that the Tax to be raised  
in the Colonies, and which shall be at the disposal of the  
British Parliament, and the proportion of each Colony towards  
the Imperial Expence should be of such a nature, as it may  
never after be necessary to alter it.

We are also humbly of Opinion, that this Tax, should be  
of such a nature, as should not depreciate. But should increase,  
in the same Ratio with the affluence of the Inhabitants of this  
province.

~~1/1/20~~  
We are also humbly of Opinion, that the Tax should be of such a nature, as not to be liable to be affected by the increase or diminution of the Metals of Gold and Silver in the World.

From these considerations we humbly offer it as our Opinion that the fittest tax for this purpose, would be a duty of so much per Cent upon all Commodities imported into this Province, not being the produce of the British Dominions in Europe and America, (except the Article of Bay Salt) this Tax will include almost all the Luxuries made use of, and will increase, in an equal Ratio with the affluence of the Inhabitants, and if the Rate of the several Articles are fixed every Ten years for the future and Subsequent Ten years, it will not be liable to depreciate in Value by the increase of the Metals of Gold and Silver.

~~1/1/20~~  
We therefore humbly pray, that the Supreme Legislature of the British Empire, will please to accept of a Tax,

as above pointed out, and so conscious are we of your Justice and Humanity that we request to know what proportion would be pleasing or agreeable to you, reminding you to consider that this province having no Manufactories or Lucrative Commerce, must ever have a scarcity of Specie.

We also humbly pray, that when the Exigencies of the State may require any further supplies from this province, that then such Requisitions may be made in the usual manner, formerly practiced, whereby we may have an Opportunity of shewing our Duty and attachment to our Sovereign, and our sense of the Cause for which the Requisition is made, by which means, and that only, our Gracious Sovereign can be acquainted with the true sense of the people, in these his distant Dominions.

We also humbly pray that you will permit us, and instruct your Governor to assent to an Act to disqualify and deprive every Member of the Community from the rights and

~~privileges.~~

privileges of any illicit Trade or fraudulent dealing together with their Aiders, Abettors, or Concealers in this or any other Branch of the Revenue.

*Yes.*

This will render unnecessary a Multitude of Officers employed to detect illicit Trade and prevent that disgust and evil Spirit which has been created by their Insolence, and will prevent that corruption of manners and that contempt of the crime of perjury which is now become so open and flagrant. We humbly request that you will appoint good and sufficient Salarys, to the officers of the Customs and absolutely forbid them to take any Fee, in any case whatsoever as we have found that the detail of Revenue duty, in all its Departments, have been clogged with unnecessary forms and trifling Regulations, to increase the fees and perquisites of the Officers, And are also humbly of Opinion that if those Officers were under the controul of the governor, the Council.

*and*

and Judges of the Supreme Court of this province - it would be more for the advantage of His Majesty's Service and the good of the Revenue. We also humbly request that if the mode of Taxation be pleasing to you that you will permit and order the Legislative Council and the Judges of the Supreme Court, for the time being, to determine and affix the Rate of the Taxed Articles, every Ten years for every subsequent Ten years.

. . . . .

May the Spirit of Concord, Justice, and publick Virtue, direct the Councils of the British Senate and may the Father of Mercies preserve constitutional Freedom, to the British Race, in every part of the Globe.

In the beginning of this Session, Your Excellency was pleased to recommend to Us to make Provision for the Support

of Government, and the Discharge of the provincial Debt: This  
House Most sincerely concurred with your Excellency in the  
Necessity and Justice of the Measure, and deliberated on every  
practicable Scheme of Taxation, that occurred to Us.

For this Purpose we made Estimates of all the apparent  
Property in the several Townships in this Province, and ascer-  
tained the Value of such Property at the Rate which it might  
or would produce in any other Province of America, from this  
Calculation we Judged, that a Tax might be levied which would  
produce the sum of £4000 into the Treasury: The necessity of  
Taxation and the Ratio of the Property to be taxed being  
determined, we took into consideration the possibility of  
Collecting a Tax in a Country where the whole circulating  
Medium doth not Amount to £1200. and of which Sum there is  
never so much as £200. Circulating in the Country, or among  
the Farmers, who are principally to pay this Tax; to obviate

~~this~~

this Difficulty this House passed a Bill for establishing a Paper Currency and Loan Office, on the Most unexceptionable Principles, Similar to those which have been lately passed in New York and Pennsylvania, and which have met with the Royal Allowance. This Bill was sent up to his Majesty's Council, and this House by Message desired, that a Clause might be therein inserted, Suspending its Effect until his Majesty's Pleasure should be Known, but, his Majesty's Council have returned this Bill not Agreed to.

It has been intimated to several Members of this House, that a Proportion of Property taken in Kind, might be a useful expedient on this occasion, to raise Money for the support of Government; but when we consider the variety of Articles of which the Property of the Individuals of the Country is Composed, and how difficult it would be to exchange most of them for more Vendable Articles, the amazing Loss and Expence of Collection,

~~mist~~

must make it necessary to raise £3000 from the Subject, to realize £1000 into the Treasury.

To attempt to raise a Revenue when no Medium of Exchange exists, would certainly have a very ill Effect, the Prosecutions occasioned by the inability of the People to pay the Tax would be ruinous to them, and tend to depopulate the Province, were your Excellency fully acquainted with the Circumstances of the Inhabitants of this Country, you would readily Concur with us in opinion, that no Tax can be raised until such a Medium is established.

This House doth further beg Leave to acquaint your Excellency, that we passed an Act for regulating Elections, and declaring the Qualification of Members of Assembly; a Bill of this nature was absolutely necessary to guard the Constitutional Rights of the People, particularly in this Province, where certain Officers of Government have openly and avowedly

~~insulted~~

insulted the Privileges of the People in Elections; this Bill was also returned not agreed to, although a Clause of the same Kind was proposed to be added thereto.

This House did also pass one other Act for taking, examining and stating the public Accounts of the Province, and to appoint a limited Time for bringing in the Demands against Government; the Constitutional Equity and necessity of a Bill of this Nature must be apparent to every unprejudiced mind: This Bill was also rejected.

The General-Assembly has now sat six weeks, we are sorry to say that our Endeavours for the public Welfare have hitherto failed of Success: We had framed a Bill for raising a Revenue, but for the Reasons herein given we could not think ourselves Warranted to send it to his Majesty's Council.

We humbly Request your Excellency will be pleased to transmit the aforementioned Bills to our gracious Sovereign,

who

who having at Heart to relieve and assist his dutiful Subjects  
in this and every Part of his Dominions, will we Trust permit  
the Legislature of this Province to pass those Bills into Laws.

The approaching Harvest requires our Attendance in the  
Country, and we pray your Excellency will not call us together  
again until next June, when we may Hope an Answer to the  
Petition which we have humbly transmitted to our Gracious King.

To His Excellency Frances Legge Esquire  
Captain General, Governour and Commander in

And to the Honourable his Majesty's Council of  
said Province

The Humble Representation and Petition of the  
Inhabitants of the Township of Truro -

May it please your Excellency

We his Majesty's Dutifull and Loyal subjects being  
under the Greatest concern, on account of the present alarming  
situation of publick affairs in this province, with respect  
to the unhappy dispute betwixt Brittain and her American  
Colonies -

. . . . .

*14/1/75.*

And as two Acts were passed at the last sitting of the General Assembly, one for raising and Embodying the Militia; and the other for raising a Tax for the Defraying the expence of the same.

We apprehend that should the abovementioned Acts be Immediately put in force it would almost Totaly ruin this Settlement, as well as those in this Neighbourhood; as well for the foregoing as following reasons, Namely, that as a great Number of the families are new beginners in the world; settled on, and bringing too new farms in the woods, and very seldom more than one man to a family, who with all their prudence and Industry are but barely able to provide a very scanty support for themselves and families; and there being an almost total want of a Circulating medium, it would be utterly Impossible for a number of us to raise money if it were to save our lives.

. . . . .

*14/1/75.* 36.

We therefore humbly beg that your Excellency in Council, would be pleased to take our case with that of the other Settlements in this District into Consideration, and in your Goodness be pleased to order, that we may not be called upon to march into any other parts of the province to Defend the families and properties, of others, while our own are eminently exposed, but that we may be allowed to continue at home and carry on our Labours in such a manner, as by the Blessing of God we may provide a competency for the Support of our families, or Defend them if Invaded.

We earnestly and humbly Intreat your Excellency and council would be pleased to take our case with all its Circumstances into Consideration, that you would see the reasonableness of this our Representation, and in your Wisdom and goodness order for us according to these our Desires -

And your Petitioners as in Duty bound shall ever humbly

pray

pray &c &c

Dear Sir,

Necessity obliges me to give you a Line for advice, The Late Act for the drafting, and Tax for Supporting the Militia has made an universal uprore, A Memorial is come to Halifax, and my name at it, for my Situation is such, am in a great measure oblig'd to become all things for Quietness sake, shall just give you the present State of Sackville, it now consists of 51 Families, 3 of which have two men in one Family and no more; I may venture to say not £20 in the whole Township at present, perhaps £250 in the hands of M<sup>r</sup>. John Day, and that the property of 2 persons. How the drafting of 10 men, and the Collecting of the Assessment in Specie is practicable in such

a Situation, I am not wise enough to know, as to my part I would Support Government with  $\frac{9}{10}$  of what I have, but can by no means Sacrifice a Wife and 6 Children by leaving them in the hands of Men, who would take every advantage to distress them, besides I make free to tell you; I have obtain'd a thorough knowledge of the N.E. people here, they will ~~sell~~ the Troops anything they have, necessity obliges them to it. But was they put in Arms they would immediately convince Government upon the first occasion, what side they would take, I cannot help thinking the Act is badly calculated for this Quarter, for I believe it not possible for the Civil power to enforce it, I am sorry I am appointed an Assessor along with Robert Forster, and Samuel Rogers, Robert Forster will decline & I would not trust Samuel Rogers with 3 Coppers, I fully expect unless a Military force is sent here the (Obrians Gan ) will be sent for, and the Country will be in Rebellion, such a plan has been

~~p. 160.~~

That the Memorialist proceeded to the West Indies, and there sold his Cargo, and returned to the port of Halifax on the 18<sup>th</sup> of May last, and entered his Cargo of Melasses, and took the Oath prescribed by the 9<sup>th</sup> Section of the Act for encouraging the West - India Trade, and complied with

the Tenor and Spirit of the whole Act, before his Departure from Louisbourg, so far as it was possible to be done, as will appear by his Affidavit before Justice Phipps, notwithstanding which the officers of Impost and Excise detained the Memorialist for more than a Week, and would not allow him the Benefit of the Act, but demanded the Duties of 5<sup>d</sup> per gallon.

*W. N. N. N.*  
That the Memorialist having sold Part of his Cargo at Halifax, Suffered very considerably in Consequence of this unexpected Demand, the sale being thereby made Void. As also by the Detention of his Vessel, having a very large Quantity of English Goods and other necessaries on board for the Use of his Fishery; that as a Part of the Melasses which was sold could not be returned him, he was obliged to give Security for the Payment of the Impost thereon, amounting to the sum of 5 l. 10. 0 until the Sense of this Honorable House was Known therein.

The Memorialist therefore prays this House will please

to take his case into consideration and grant him such Relief as may appear Just.

And to the said Memorial was annexed the following Affidavit, in support thereof.

This Day personally appeared before me William Phipps, Esq; one of his Majesty's Justices of the Peace for the County of Breton, in the Province of Nova-Scotia, M<sup>r</sup>. 'We his Majesty's ever dutiful and loyal Subjects, the

The other which appear'd to be a favorite Bill of the Assembly, was for emitting the Sum of twenty thousand pounds on Loan, and establishing a Loan Office.

~~p. 99.~~

The Scarcity of a Medium to carry on the Trade and business of the Colony is alledged to be the principal motive; They have already emitted above twenty thousand pounds in Treasurers notes, which are unpaid, and though upon Interest could never Substitute a Medium, but are Sunk above Forty per Cent below its Nominal Value, and such another emission of so large a sum, without Interest, upon so Slender a Security,

48

as Mortgaging Lands, which here have no certain Value, and will never be of use in Trade, must tend to a greater depreciation, and greatly Injure the Creditor. The Council therefore did not agree to it. And I am of opinion that no Paper Currency can keep up its Value, but what is founded on Taxation to be redeem'd in Short periods, as is now practis'd in the other Colonies; if such a Fund could be establish'd, and the Army, and Navy yard here, were to pass it for their Bills for Remittances for the Traders, and Shop Keepers here, it would obtain a Currency, and keep up its Value, and might be so far usefull as to prevent in future, the Risque of sending Money to this place, by answering the purpose of a Medium.
