- Note: McLachlan, Breton & others know only of the two varieties. In Mehl's Numismatic Monthly, Dec. 1916, it is stated that another variety of the small ground coin exists. I have yet to see a specimen. McLachlan considered the coin to have been struck for the Lower Canada market, whereas Breton claims it was ordered by a Toronto firm. Although obviously aimed at the Canadian market, its status should be considered non-local.*

1886.

Canadian Numismatics was originally published in the *American Journal of Numismatics* from 1879 to 1886. McLachlan then had it privately published in Montreal, with a few minor changes, in an edition limited to 100 numbered copies. The book is considered to be the finest individual work on Canadian numismatics, and much of the information has never appeared elsewhere. Due to the rarity of the book, and the poor paper that it was originally printed on, the publishers felt that a reprint would be desirable. This facsimile edition consists of 100 numbered copies, cloth bound, on Kilmory paper, [iv], 127 p., plus two plates of line drawings.
