THE COINS AND TOKENS OF CANADA

An illustrated list of all the types of Canadian
Coins and Tokens from 1670 to date,
including the official mint reports
from 1858 to 1936.

INTRODUCTORY REMARKS

This is not a Price List. The values given are the retail and auction prices averaged over a period of several years. The publishers do not attempt to carry a complete stock of Canadian coins but will base the prices of such as they may have upon this list. Values given in italics indicate that the coins are seldom found for sale, past transactions have been made at about these figures.

No attempt has been made in this list to tabulate die varieties. Collectors, who are interested in varieties of boquet sous, bank tokens and other pieces are referred to the various publications by Breton, Courteau and McLachlan. This list has been prepared for a world-wide distribution and not for the specialist.

It will be noted that the "Doubtful" series as listed by Breton has been entirely omitted as the tokens bear no reference to Canada, having merely circulated there although struck primarily for speculative use in England and Ireland.

The mint report, which has been compiled through the courtesy of the Ottawa mint, shows for the first time the comparative rarity of modern Canadian coins.
