The firm which started up in 1835 offered the Montreal public and its American customers a wide range of "fancy goods", some of which, as can be seen by the broadside illustrated, appealed to a very limited clientele. Sharpley's 1842 trade card also boasts stationery and toys, Berlin wools, patterns, ladies and gentlemen's dressing cases etc. He also advertised cricket bats, balls, fencing foils, masks & boxing gloves on one of his 1868 invoices. Twenty gross (2880) of the tokens were struck in Birmingham in 1862 principally for distribution among the American customers of Rice Sharpley. Rice Sharpley is said by Langdon (Canadian Silversmiths) to have retired to England in 1880, but his sons, William and Fred carried on the business till their deaths around the turn of the century.

| 71. | Br. 574a. Gnaedinger fiftieth anniversary token (moose-head) in silver. grey-toned a.u., very nice. Rare, one of only a half dozen struck. This is the specimen that appeared in several of the Lepczyk sales. ex-Hughes. | \$1000.00. |

| 74. | Br. 614. R.W. Williams card, (1891). brass. v.f., small clip at obv. 3 o'clock.   | \$30.00.   |

75. Br. 640-647. Set of Ludger Gravel tokens in brass. According to Breton, 232 struck of the first; 111 of nos 641-646; 28 of Br. 647, an estimate I believe to be accurate as it is scarce indeed. An avid collector paid \$250.00 for this last piece as long ago as 1967! \$450.00.
76. Br. 674. Arnault's sou. C. 63. (close milling). Double-struck example. f-v.f., dark, rev. planchet flaw. Interesting piece. \$30.00.
77. Sim., in brass. C. 67. (wide milling). f-v.f., weakly struck left obv. \$35.00.
78. Br. 681. Belleville issue bouquet-sou. Scarce var. fine, few nicks on obv. & rev. edges. ex-Hughes. \$250.00.
79. Br. 689. Early example of Dr. Picault's sou struck in lead, without collar. fine, or better but badly affected by lead disease which has been arrested, but almost too late. One of the earliest issues, and only three or four struck c1863. Of great interest is the pedigree of almost 100 years: sold by J. Bronsdon, a founder of the Numismatic & Antiquarian Society Montreal in 1862, to Dr. Richard Bateman in 1897, then to Lindsay McLennan who had acquired Bateman's collection in the 40s or 50s; it was then offered as part of the McLennan/Bowman sales at C.N.A. Auction, Aug., 1969, acquired by myself and sold to Mr. Hughes. \$450.00.

The dies for this famous sou were found on the premises of Dr. Picault in August 1863, and were presented to the Numismatic & Antiquarian Society by Dr. Picault's son. The dies are presently in the National Currency Collection, Ottawa. Early specimens were struck without collar, and of these restrikes the lead pieces are said to be the earliest. One or two brass originals exist. Dr. Picault had come from France to Canada in 1833, but his medical degree, obtained in France, was not accepted in Canada until 1838 when he took his license to study medicine. He soon afterwards opened a druggist establishment, first from his house on St. Lawrence near Craig, then at St. Paul Street around 1847, and finally to Notre Dame and Bonsecours in 1848.

80. Br. 696. Belleville issue bouquet-sou. Uncommon var., f-v.f., struck on defective planchet due to a triangular-shaped flake which had chipped off before striking; nonetheless, the flaked-off area took up the striking. Interesting. ex-Hughes \$50.00.
81. Group of Bouquet sous, as follows: Br. 674, C. 63, f-v.f.; Br. 674 (brass), C. 67, g-v.g.; Br. 684, dies N.N., fine; Br. 686, v.f.; Br. 688, v.f.; Br. 691, v.f.-e.f.; Br. 693, fine; Br. 695, fine; Br. 704, v.f.; Br. 705, fine; Br. 707, f.-v.f. 11 pcs. \$75.00.

FUR TRADE TOKENS.

- 111. Hudson's Bay Company dollar token for the Columbia District. Counterstamped "S" for Simpson or Skeena. ae. 31 mm. biface. struck on a cast flan, as usual. e.f. ex-Hughes. \$1000.00.
- 112. Hudson's Bay Company Labrador District 1 (M.B.) al. 21mm. uniface. v.f. \$35.00.
- 113. Sim. 20 (M.B.) al. 32mm. uniface. a.u. \$50.00.
- 114. COUNTERMARKED COIN. PAQUETTE & CIE./(beaver)/MONTREAL/M'F RS. On a Cartwheel penny, 1797 (reverse). Coin is fair, cmk. strong other than AQ which was either not struck up, or is missing as a result of abuse (numerous small, old nicks and dents). Rare, the only one I recall having handled, and probably not as deficient as the description implies. \$275.00.

The piece appears to be of a much later date than its undertype would suggest. The two or three others I know of are also countermarked on cartwheel pennies. No person by the name PAQUETTE is listed in Montreal Directories till about 1860. About 100 years beyond the date of the coin, a listing for Paquette & Co. manufactures of a product called Crown Liquid Blue, a laundry agent, occurs for the first time. The directory for 1894 had no such listing, but that of 1898 did, so the firm started up somewhere within that period, but appears to have already been out of business by 1902. Is it a coincidence that 100 year old coins would be used to celebrate the start of a business?

115. AUTOMOBILIA. Circular brass disc, die struck, with perforations at side for adhesion to car: THIS CAR AND PASSENGERS PROTECTED BY/WATSON STABILATORS; in centre, within odd-shaped device: CONTROL/AND/SAFETY/OVERALL/ROADS. Rev. Incused version of the preceding, as a bracteate. Probably Canadian, c1940s? 54mm. v.f. \$45.00.

#### FUR TRADE FANTASIES.

116. EDOUARD MARCHAND/KCROY (letters retrograde - should read YORCK(?)) In centre: RUENNAT (letters retrograde - should read TANNEUR)/1823. Rev. 1 PEAU/MOUTON/10/SOUS. Also three others for 1 peau VEAU, (12 SOUS), VACHE (80 SOUS), BOEUF (100 SOUS). w.m. 32mm. ex-Wickham, Gibbs, Curto collections. all e.f. 4 pcs. \$500.00.

These absurd pieces were first recorded in Leroux's Second Supplement, c1897, Ler. 1071g-j. There is another variety for 1 peau CHEVAL, not present in this offering (Ler. 1071k). Leroux's speculation that KCROY should be read as YORCK is questionable as no place of that name, which he suggests later became St. Cuthbert, is known in Canada. Several Yorks exist to this day, but I have no record of St. Cuthbert having been previously known as York or Yorck. The pieces are clearly spurious, late-nineteenth century fantasies which were given credibility in Jim Curto's Supplementary listing of "Indian and post trader tokens...", The Numismatist, Aug., 1956. He stated: "The only information obtainable on the following tokens is that they came from the Wickham collection. The tokens being related to hides and a tannery, they are herein listed." The maker, or more properly, faker, probably being English speaking, made the same blunder as the producer of Br. 588 who, in believing he was pluralizing SOU added the S. The present set is the same offered by Hans Schulman in his Wickham Sale (1947), described as "modern item(s) for collectors". They were purchased by H.G.D. Gibbs, and later acquired by Jim Curto. Each token is in a Gibbs' envelope and contains an additional inserted description (probably in Gibb's hand) stating the following: "Unlisted scarce hide tokens from the Wickham Coll... Like the Hudson bay (sic) tokens for beavers."

117. Another of the tokens for 1 PEAU VEAU/12/SOUS. w.m. e.f. a "1" seems to have been purposely punched into the obverse at centre, under second N to between 8 and 2. \$60.00.

#### MEDALS.

132. 1758, 1759. Victories medal. Mule of reverses of Br. 49/50  
Ler. Supp. 862a. Betts 419. Med. Ill. George 11, 445. Only  
listed in brass in M.I.; this medal is silver. v.f.-e.f.  
Scarce. \$750.00.

The North American British successes commemorated are those of Louisbourg, Fort Frontenac, Fort Duquesne, Niagara, Quebec and Crown Point.

133. 1825. William Dummer Powell & Anne Murray Golden Wedding medal.  
Br. 183. Ler. 730. copper. e.f. scarce. \$500.00.

This may be considered the first purely Canadian medal. Powell had been the Chief Justice of Upper Canada, a most extraordinary man who tended to disregard the council of others and thus encountered serious difficulties in his political and private life.

134. (1842). GEOLOGICAL SURVEY OF CANADA/1842. In centre,  
crossed picks over a map of Canada. Rev. Plain. red copper,  
and appears to be about 100 years later than the date of  
the formation of the survey. 38mm. e.f. \$40.00.

The Survey, founded by Sir William Logan boasted several great geologists and explorers as Robert Bell, George Dawson, Alfred Selwyn, and many others. The two first were recipients of the prestigious Royal Geographical Society's gold Patron's medal.

Rev. Plain but for maker's name A.H. Welch, his dates of which Langdon (Canadian Silversmiths) gives as 1877-1886. appears to be brass, silvered. 39mm. with pair of loops (broken) which may have contained a members name tag. McColl, p. 19, no.131 is the only listing that I have of this rather crudely made piece. Though I've seen two or three others in recent years, it's the first I recall owning. scarce. Clearly, the date on the medal does not correspond to that of its issuance. \$85.00.

136. 1852. Provincial Agricultural Exposition medal. Ler. 610. silver by Armand Auguste Caque. Added loop. ex-Victor Morin Coll. with original envelope. v.f. \$65.00.

Caque signs the medal as "Gr (graveur) de E'empereur", a post he was appointed to only in 1853, according to Forrer. If this is the case, it casts some doubt as to the date assigned to the medal which is the year the Lower Canada Agricultural Society was formed.

137. 1886. Colonial and Indian Exhibition London medal. Obv. Prince of Wales, L. copper. unc. \$35.00.

Canada was, of course, an active participant at the exhibition and at least two Canadian publications were produced prior to, and reporting on the exhibition.

Mackenzie, (1867-1938) was a physician and sculptor born at Almonte, Ont., and educated at McGill University (B.A., 1889; M.D.C.M., 1892; LL.D., 1919) and at Springfield College (M.P.E., 1914). From 1894 to 1904 he was medical director of physical training at McGill, as well as being a member of the teaching staff in anatomy. In 1904 he went to the United States to assume the position of professor and director of the department of physical education at the University of Pennsylvania. (Wallace, Dict. of Can. Biog.) The medal is considered as the most beautiful produced by Mackenzie. The 46 inch original was exhibited at the 1912 Olympic Games at Stockholm, after which it was offered to Sweden as a permanent memorial to the 5th Olympiad. The original plaster was then cast into bronze and set into the wall beside the stadium entrance. In 1914, a new version (this) was produced, differing in the scrolling and hurdle positions.

#### NUMISMATIC LITERATURE AND RELATED MATERIAL.

150. Morin, Victor. Traite d'art heraldique. Montreal, 1919. 403, (6)p. 5 plates, each with many figures showing heraldic emblems. Wraps. Presentation copy from Morin to his son, Roland, and from an edition of 50 copies "du tirage special" on laid paper. \$175.00.
151. (Morin, Victor). Catalogue de la bibliotheque de Me. Victor Morin... Offerts en vente par la Librairie Ducharme Limitee. Montreal, Avril, 1950. No. 1 of three catalogues of the Morin library issued by Ducharme. 64p. 931 lots at fixed prices. Nos. 762-791 are numismatic, and the notes on the Sandham entries are worthwhile bibliographically. \$25.00.
152. (Morin, Victor). Continuation du catalogue de la bibliotheque de Victor Morin... Offerts en vente par Librairie Ducharme Limitee. Montreal, Fev., 1951. No. 3 (and last) Morin offering. 66p. Lots 2000-2992. Lots 2716-2731 are under his numismatic section, no Canadian material listed. Lots 2976-2978 are Indian relics - a papoose cradle, carved Mohawk ladle, and corn strainer. Lots 2979-2992 are "museum pieces" and "curiosities". Rubber library stamp on front cover. \$20.00.

Morin consigned a group of rare historical works (Canadiana and Americana) to the Anderson Galleries in March, 1931. I've been told that he was bitterly disappointed in the results, but my view is that for the most part the material sold well. Of note was the offering of a set of the Numismatic & Antiquarian Journal, complete through the third series which brought \$150.00.

153. Sandham, Alfred. McGill College and its medals. Illustrated by W. Notman, Photographer to the Queen. Montreal, D. Bentley & Co., Printers, 1872. (40)p., 4 plates of McGill medals, and engraving of the Presbyterian College. Orig. boards, front one detached as well as is front flyleaf. Inwardly fine, and easily restored. \$200.00.

The Morin catalogue, listed above, quotes Sandham's memo in Morin's copy: "This I intended for private circulation, but at their request of Dr. Dawson (Principal of McGill) I printed an edition of 200."

154. Slafter, Rev. Edmund F. The copper coinage of the Earl of Stirling. Boston, Privately printed, 1874. One of 100 copies reprinted from the American Journal of Numismatics. 14p. and engravings of the two coins. Green cloth, ex-libris removed from front endpaper, "Gift of Rev. Mr. Slafter, C.P. Otis, Boston, April 22, 1874." on flyleaf, embossed library stamp of the Public Library of the City of Boston. \$250.00.

The work has been generally overlooked by Canadian numismatists. In 1620, the Earl of Stirling had been granted a charter for an area called "New Scotland", and which encompassed Nova Scotia, New Brunswick, "and the territory lying immediately north of the last named province, and south of the river St. Lawrence." He established a Scotch settlement at Annapolis, N.S. in 1628, but it was removed four years later due to a treaty between Charles I and Louis XIII. The royalties from a copper coinage were awarded to the Earl of Stirling for a period of nine years. The coins thus have a secondary interest for Canada.

END

I am interested in purchasing collections or single items of historical importance. Of particular interest are the Vexator coins (Br. 558, 559), and early Canadian engraved medals. I also deal in, and collect historical Canadian manuscript material and almost any form of Canadiana. Several collectors receiving this list have no doubt abandoned the hobby, and I address this to them especially, as frequently items are set aside and forgotten, so awake former collectors and offer me your material. Warren Baker.
