BLACK MONTHS FOR LEAP YEAR

Canadian Calendars

The intent of this listing of Canadian Calendars, with images where available, is to serve as a reference of the Canadian perpetual type calendars that I have been made aware. It is also being distributed to solicit feedback as to any errors, new entries and to obtain images I was not able to obtain. It is intended to be a starting point only. Collectors of exonomia items such as encased and spinners usually seem attracted to these interesting calendars that are not related to numismatics but are still interesting and fun to acquire, research and catalogue. Given the limited research in this area these Canadian items it should be fun to catalogue and research what continues to show up from time to time.

To ensure only one entry for each calendar that has multiple locations on it (i.e. *Atlas Construction & Crane Services* - see Edmonton and *Sadler & Haworth* - see Montreal) I generally try to put the image under the first location appearing on the piece and reference it in the other locations.

A listing of interesting items of this nature would not happen without the input from the collectors of these calendars. Acknowledgment for contributions to this listing include: James Astwood, Len Buth, Ronald Greene, Elmer Lupul, Tim Henderson, Ryan Lawson, Al Munro, Tim Saunders, Eugene Simms, James Williston, The Token Catalog, etc.. I have only included those images that I was able to obtain from the above collectors. Ones without images are from the other references mentioned.

If you come across any errors or have unlisted pieces or additional images I would appreciate hearing from you. I can be contacted by email at egjensen@telus.net.
