Canadian Exonomia - Spinners

The intent of this preliminary listing of Canadian Spinners, with images where available, is to serve as a reference of the Canadian spinners that were found listed in the various Canadian numismatic publications as well as those spinners made available from various collectors. It is also being distributed to solicit feedback as to any errors, new entries and to obtain images I was not able to obtain. As it is highly unlikely that this is a complete reference of what has been published in the past or what exists in collectors hands it could be considered as a good starting point for further research on the fascinating study of Canadian spinner exonomia. Collecting spinners can be an interesting and rewarding part of our numismatic pastime. Given the limited research this area of Canadian exonomia has received over time it is evident much more can be done to further research, record and publish on this topic. It is hoped others will contribute to make this a decent “record of known Canadian spinner issuers” complete with quality images.

What is also included in this catalogue are the bottle opener type spinners issued by various breweries and other businesses. Although these items are not numismatic in nature, or any way related to exonomia, they are interesting and would make a good subset to any spinner collection. Examples of these “You Pay” spinners are included for interest at the end of this article.

Spinner exonomia made for advertising or commemorative purposes have been used in Canada from the mid 20th century. The majority of spinners have an arrow or finger pointing out “You Pay” with a few labelled “You Win”. The obverse generally provides the merchant’s or organization’s name with the reverse showing one of the above slogans.

Articles on these interesting pieces have appeared in the pages of *The Canadian Token (Cee Tee)*, *Numismatica Canada (NC)*, *Canadian Numismatic Research Society (CNRS) Transactions* and other publications. There are many spinners shown on the *tokencatalog.com* website as well. This article is not intended or suggested to provide a complete listing of all known Canadian spinners. However, for the readers wishing to peruse some of the known reported issues of the referenced documents they are generally available from the Royal Canadian Numismatic Association (RCNA) Library.

When stating dimensions I have rounded to the nearest half millimetre for those I was able to take dimensions of. I have used the notation ½ rather than the proper SI Standard of .5 as it is easier to pick out and follows on from the many documents that I was able to obtain information from. For my own record keeping I round the number to one decimal place.

A listing of numismatic items of this nature would never be possible without the input from the many collectors of spinner exonomia as well as the information obtained from other sources mentioned. Acknowledgment for contributions to this listing include: all of the authors who contributed to the publications listed above (the starting point) as well as James Astwood, Len Buth, Ronald Greene, Tim Henderson, John Humphrey, Elmer Lupul, Al Munro, Rob Osbourne, Ron Rogal, Tim Saunders, Eugene Simms, James Williston, The Token Catalog, etc.. I have only included those images that I was able to obtain from the above collectors. Ones without images are from the other references mentioned.

If you come across any errors or have unlisted pieces I would appreciate hearing from you. I can be contacted by email at egjensen@telus.net.

Terms 30 days net, 1% - 10 days, F.O.B. Factory.
No order accepted for less than the smallest quantity listed above.

All quantity prices are based on making and shipping the entire quantity at one time.

All prices include the cost of die stamping the ad in type here on one side.

As the space on all coins is limited, the ad copy must be included as indicated on samples and catalog sheets. The shorter the copy, the better it can be displayed.

Transportation Companies are not permitted to accept U. S. coins for shipment via freight, so all Lucky Coins, which include pennies, must be shipped by express or parcel post.

To achieve its purpose, the ad copy on the Key Tag should include the name of the City and State. Unless otherwise ordered, Key Tags are numbered consecutively starting with the figure "1".

13A - 58 - 5C

Your Advertising Is In Their Pockets!

Lucky Coins, Spinner Coins and Key Tags have a unique advertising impact that's bound to impress your customers . . . keep them reminded of you - day in and day out - year in and year out.

- ★ Their novelty appeal, plus their usefulness, make these clever Good-Will ambassadors highly effective salesmen for you and your Company. Your message, die stamped on the polished aluminum, will be carried in purses and pockets of those whom you wish to serve. Here is a positive, yet inexpensive way to be sure your advertising will make a lasting impression.
- ★ Adaptable to all types of business, these aluminum coins have a definite spot in your advertising plans!

[Actual size is 230 x 145 mm.]
