INTRODUCTION AND ACKNOWLEDGEMENTS

The W. R. McColl Sales List of "Canadian Medals and Business Cards", which he published in 1903, continues to remain as an important reference work for collectors of Canadian trade tokens and medals.

The one drawback of the McColl reference has been the fact that items are numerically listed, and finding a particular name can be a time consuming task. To facilitate location of the listed names, alphabetical listings have been formatted as per Index that follows. All 1237 McColl numbers contained in the 1978 Reprint of the original list, have been included.

Cross reference of tokens to the catalogues done by Fred Bowman, Leslie C. Hill, Donald M. Stewart and Cecil C. Tannahill has also been attempted. It is not suggested that this cross reference is complete. For Ontario tokens and medals, counties have been added. While care in completion and editing has been striven for, no doubt the 'gremlins' have been at work, and I suspect errors and omissions will be found. I would appreciate hearing about any correction needed.

It seems fitting that this compilation should be done on the 100th anniversary of McColl's original List. It is hoped the users may find these alphabetical listings of benefit. It has been a very time consuming, but satisfying task to complete.

I wish to add my sincere thanks to Scott E. Douglas who helped with cross-reference numbers, clarifications, and who provided many worthwhile ideas as to formats. Also thanks to Rick M. Craig for needed assistance and useful suggestions.

Original McColl Listing - By Number; Name & Location Where Known

It will be noted that in some instances, the McColl Number may be duplicated. This has occurred as a result of listing a particular item more than once for clarification and ease of reference. An example of this is; McColl Number 852, a "J. K. Cranston" issue, with "American Numismatic Association" - this has been listed under both names for Number 852.
