LIST 19: SEPTEMBER 1982

Dear Friends and Customers:

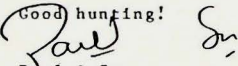

Hello and welcome to our first major list of the Fall, this one coming to you along with the catalog for our November token and medal auction at the Toronto International Coin Fair. You'll notice fewer sections than usual in this list, we've finally managed to finish cataloging our new purchases from the C.N.A. in Winnipeg in July, and offer a selection from them now, including the major Crown collection we've mentioned a couple of times.

As the Fall season gets under way we are encouraged by the high level of demand for truly "collectable" coins, as opposed to the "investment" type hypes we saw a couple of years ago. It's truly a collectors' market today, as decent-grade coins in silver and copper have come right back within reach, and all the temporary money has flown elsewhere. We at Nadin-Davis shall continue, as always, to emphasize nice collectible coins, with just a smattering of high-priced and superb condition pieces. We believe the mid-1980s will be the era of the VF to EF coin, and a time when many collectors will breathe a sigh of relief and get on with finishing sets they never thought they could finish during the gold and silver booms of 1980!

Still, enough of the talk. Actions speak louder than words, and we hope you'll find a fair selection of pieces to interest you in the following pages.

Finally, please remember we are always in the market to buy nice material of the type you see listed here - clean, undamaged Canadian and Newfoundland coins, tokens and medals, and world coins of all kind, preferably with a minimum catalog value per coin of \$10, though we will buy cheaper material to secure collections. Please contact us if you have thoughts of disposing of your duplicates or part of your collection.

Good hunting!

Paul & Su

Y-27 to Y-33, all UNC with lustre. This year (1951) is not reported as an officially issued set, but the occurrence of the pieces all together like this, plus the exceptionally sharp edges on them, leads us to the conclusion these must be from an unofficial hand-picked set or they might be mint specimens.
