TERMS OF SALE

1) An 11.5% buyers charge, inclusive of G.S.T. will be added to the hammer price of each lot purchased and is payable by the buyer as part of the total purchase price. The exception to this will be **ARROWED** lots (→) purchased by Canadian residents, who would pay an additional 7% G.S.T. of price realized. Lots are not shipped until payment is received.

2) We reserve the right to withdraw any lot prior to sale.

3) In conformity with law, no coins or currency lots will be opened at less than the face value.

4) Bids by mail, telephone or fax will be accepted until the closing date and time specified. All telephone bids must be confirmed in writing on a bid sheet. Bids are treated as LIMITS.

5) No "Buy" or "Unlimited" bids will be accepted. Mail bids will be opened at the next interval over the second highest bid, except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.

6) In the case of a tie mail bid the first received is normally given preference. In a tie between a mail bidder and the floor, the mail bidder takes precedence.

7) All bids must be in whole dollar amounts; this includes percentage increases.

8) Postage, insurance and/or handling fees are added to ALL SHIPMENTS. Out of Canada bidders must supply full detailed shipping instructions and agree to all terms as listed herein before shipment is made.

9) Jeffrey Hoare Auctions reserves the right to reject any bids not made in good faith and reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion. Generally bids below 50% of estimate will not be accepted.

10) A bidder in any Jeffrey Hoare Auction expressly waives any claim or right to an accounting, damages or compensation arising out of Jeffrey Hoare Auction's failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.

11) Check your bid sheets carefully. We cannot assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.

12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.

13) Successful bidders are required to pay the full invoice amount before lots are delivered. Previous established lines of credit, at the sole option of the auctioneer, may not be honored unless arrangements for this sale have been specifically agreed to in writing by the auctioneer. Please contact us in advance if you have any questions regarding your purchasing plans. First rate credit references or a 25% deposit are necessary to insure entry of your bids. Any portion of such a deposit not used will be promptly refunded after each sale.

14) Title to all lots remains with the Auction House until payment in full is received.

15) By placing a bid in this sale, you agree that this agreement is made in Ontario by the auction house's entry of your bid, and that disputes concerning the agreement shall be decided by the application of Ontario law. In the event of a dispute or nonpayment, the auction house may elect to proceed judicially, in which case the bidder consents to jurisdiction and venue in courts of Ontario. If an account is referred to an attorney for collection, the buyer agrees to hold the auction house harmless and indemnify it for all costs of collection, including actual, reasonable attorney's fees, with interest at 1 1/2% per month (18% p.a.) accruing on the entire amount paid. The bidder also assumes both corporate and personal liability for unpaid auction bills.

16) Sales Tax will be collected under the law of the Province of Ontario unless a valid vendor's permit number is presented, or lots are shipped out of Province.

17) Jeffrey Hoare Auctions may reopen the bidding on a lot under the following circumstances; (i) The Auction house has failed to execute correctly a mail bid. (ii) A party purchasing the lot on the floor has done so in error. (iii) Where a protest is made after the hammer has fallen, but before the bidding has commenced on the next lot. (iv) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. (v) At the discretion of the auctioneer.

18) In the event of a dispute the auctioneer's decision is final.

19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made to a bidder.

20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. The Auction House reserves the right to reject frivolous complaints and to take appropriate action against such bidders under paragraph 9 and 15 above.

21) All material offered is guaranteed genuine, unless otherwise stated, and as described. Careful examination has been made of every lot by experts. Cataloguing errors will be promptly and cheerfully corrected.

22) Floor bidders may not return any lots including those lots purchased while acting as agents, except for non-authenticity.

23) All claims for adjustments by other bidders, for reasons of non-authenticity or improper description, must be made within five days of receipt but in no case more than 28 days after a sale. As the auction house acts as an agent for various consignors, NO CLAIMS OF ANY KIND can be considered after settlements have been made. Failure to execute this privilege within the 28 day period, either from a failure to pay promptly or from any other cause shall void the privilege. Any returned lot must be in original holder with seal intact.

24) If we are notified prior to our settlement date that an opinion of condition alteration or authenticity is being sought, the matter will remain open until such opinion is rendered.

25) 1 1/2% monthly interest is charged on all accounts 30 days past due calculated from the sale date. If any awarded lots are still on hand without deposit 30 days after a sale, they will automatically be offered to the underbidders or relisted in the next available sale. The difference in price will be billed to the former bidder. Late payers should not expect to receive future catalogues.

26) In the event of unsuccessful litigation the plaintiff shall pay all the Auction House's legal costs, and all other costs incurred by it in defense against such suit.

27) The same protection applicable to Jeffrey Hoare Auctions apply to each and every one of their officers and employees, unless they shall be convicted of knowingly selling false or stolen goods.

28) Jeffrey Hoare auctions assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.

29) Terms of this sale are strictly cash and must be paid promptly in Canadian Funds. Payments should be made immediately upon receipt of the invoice. Payments from foreign accounts must be made in a Canadian Dollar Bank Draft.

30) As a convenience, invoices may be charged to Visa or Mastercard accounts. Please supply account number, signature and expiration date at the bottom of your bid sheet. Please note there will be an additional service charge of 2% for using a charge card.

31) Third party graded coins such as ICCS, PCGS and NCG, cannot be returned for grading disagreement. They are sold as is. Any discrepancies in the grade should be taken up with the appropriate company.

32) **BIDDING IN THIS AUCTION SALE CONSTITUTES FULL ACCEPTANCE BY THE BIDDER OF ALL THE FOREGOING TERMS OF SALE.**

THE ROY HUGHES COLLECTION OF CANADIAN COLONIAL COINS AND POST-CONFEDERATION TOKENS. CATALOGUED BY WARREN BAKER.

The collection is catalogued as per Breton number, the system used by Mr. Hughes in attempting to complete the series.

FRENCH COLONIES IN AMERICA.

1441→ Br. 502. Gloriam Regni 5 sols, 1670. Appears to be Ford 2-A, but for the X which touches bust. VF., couple of small digs on rev., slight bend. Purchased from W. Baker. **\$600**

Reference is here made to the New Netherlands Sale Catalog 54, April 22, 1960, wherein John Ford describes six die varieties from four obverse and three reverse dies.

1442→ Br. 503. Double de L'Amerique, 1670. Cast of the famous, possibly unique coin. Fine. **\$100**

The only documented original is in the American Numismatic Society, New York. It had previously been in the collection of Baron Ferrari.

1443→ Br. 505. "Colonies" VI deniers, 1717 Q. (Perpignan) Electrotype of this extremely rare coin of which I can't trace a single original specimen. It is said that the Ottawa collector, Dr. Dent, made these electros fifty or more years ago. EF. **\$150**

1444→ Br. 506. Colonies Francoises (9 deniers), 1721 H. (La Rochelle). VF. **\$125**

1445→ Sim. 1722 H. VF.-EF. SIT NOM weak, still a very nice coin. **\$175**

Jeffrey Hoare Auctions is proud to have been selected to auction the wonderful collection of Breton listed colonial coins and post-Confederation tokens belonging to Roy Hughes of Hawaii. The collection is far and away the largest offered by the firm, and the best since the Langstroth/McKay-Clements Sale of 1976. Mr. Hughes started the collection while stationed in Ottawa with the Office of the Air Attachee to the Embassy of the United States of America, in 1952. Actively pursuing the hunt for a specimen of all pieces catalogued by P.N. Breton in 1894, as well as for certain related pieces like the issues of the Hudson's Bay Company, he met with a considerable degree of success, as can be seen by the fact that very few of the numbers are absent, and a majority of the rarities are present in the collection. My first dealing with Roy was 26 years ago, in Oct., 1968, when he responded to an add that I had placed in an issue of that month's C.N. Journal. I have been supplying him with pieces for his collection regularly since that time, with the exception of a five year hiatus between 1978 and 1983, according to my files. Roy dealt with several of the dealers in the United States and Canada, many of whom are still the lucky recipients of Roy's Christmas gifts. Although Roy has now decided to dispose of his collection, we know that the friendships that he has developed over his many years of collecting will continue with those that helped him form the very impressive collection we now have the pleasure to offer. As the notes and provenances on envelopes or other packaging are felt to be of interest, they have been retained.

Warren Baker.

WE WILL BE ISSUING A LIMITED NUMBER OF 50 HARD BOUND COPIES WITH 23 EXTRA PLATES. THE COST WILL BE \$50 POST PAID INCLUDING G.S.T.

1448→ Sim. 1745 C. (Caen) VF.-EF. very rare. \$300

1449→ Sim. 1762 BB. (Strasbourg). EF, full silvering, couple of obverse striations. \$150

1450→ Sim. Group of seven double sols: 1738 A, fine; 1739 W, VG.; 1741 A, good, bent; 1742 H, VF-EF.; 1750 A, fine; 1751BB, F-VF.; 1755 A (contemporary counterfeit), VF. *Plate I* \$200

1451→ Br. 509. Sol Marque. 1740 A. (Paris). F-VF. much scarcer than the double sols; indeed Breton rates them at R-5, an overating. \$200

1452→ Not in Breton. Double deniers, commonly called double toumois. Collection of ten pieces as follows: 1603 A (2), 1606 A, 1607 D, 1614 A, 1616 X, 1617 A, 1621 Dombe, 1626 A. fine - VF. Nice group of the smallest denomination circulating in New France. The deniers not being current in New France, these doubles were ordered to circulate at a denier. (See Short, Canadian currency, exchange and finance during the French period. Vol. 1, p. 13.) 9 pcs. *Plate I* \$250

1453→ Not in Breton. Franco-American jeton in silver, 1723. Frossard 1. Fine. Very scarce. This was Lot 549 in Hoare Sale 28, Oct. 23, 1993, and realized \$660 \$750

The reverse legend NON INFERIOR A METALLIS, and the beavers building their dam allude to the importance of the fur trade to New France. The precious metals were no more valuable than the staple of the fur trade - the beaver. .

1458→ Sim. A 19th century restrike in silver. Frossard 37. Wilson Obsv. M. "Argent" on edge. choice UNC. \$200

Another jeton commemorating the fur trade. The galleon has a beaver skin in lieu of the argonaut's ram skin suspended from its masthead, and the legend NON VILJUS AUREO is a sentiment similar to that on the jeton of the preceding year.

1459→ Br. 517. Franco-American jeton original in copper (appears to be bronze), 1756. Not in Frossard. Wilson Obsv. P. VF.-EF., some black spots on obv. & rev. The obv. shows two spots of die rust, the first under the R of REX, the second between X OF XV and bow. Scarce. An UNC. specimen sold at Hoare Sale 29, Feb. 25, 1994, Lot 406, for \$1155 Sold by Jos. Guindon and likely from the Lorrain collection. \$500.

1460→ Another, but in silver, and with a different obverse. Not in Frossard, although similar to his number 44. This specimen has the obverse of his number 41 and it did not appear in the Wilson Sale which only contained a specimen of Frossard 44, Wilson Obsv. Y. The difference between Frossard Obsv. 41 (this specimen) and Frossard Obsv. 44, is simply in the engraver's monogram under bust, which in the case of this unpublished variety is lower than the other which has the R adjacent to the curl, instead of under it. VF.-EF., long, old obv. scratch though hair, opposite L to upper jaw (about 10mm.), still a very nice piece and very rare. There are traces of die rust in obv field. Sold by Jos. Guindon and likely from the Maurice Lorrain collection. \$1000

1461→ Br. 518. Franco-American jeton original in copper, 1757. Not in Frossard, nor is this obverse used on any of the jetons catalogued by Frossard. Wilson Obsv. O, but this specimen does not have the large spot of die rust that appears to be on the specimen illustrated in Wilson. EF. Very rare. Purchased from W. Baker. \$500

1462→ Another, but in silver, and with a different obverse. Frossard 45. Wilson Obsv. C. Abt UNC., lovely grey/mauve toning. Much nicer than the specimen sold in Hoare, Sale 31, Oct. 94, Lot 747 at \$852.50. Purchased from W. Baker. \$1000

1463→ Restrike group of jetons in bronze and copper: Br. 510, copper and bronze; Br. 511, bronze; Br. 512, bronze; Br. 513, bronze; Br. 514, copper and bronze; Br. 515, bronze; Br. 516, bronze; Br. 519, bronze. 10 pcs. I believe the bronze pieces to be slightly more recent than the two copper pieces which have a matte finish and are on slightly broader planchets. These copper pieces I believe to have been issued in the 1950s. Both types have the BR on edge and same Paris Mint symbol. Plate II \$150

1464→ Similar group of restrike jetons in silver. Br. 510, Br. 511, Br. 512, 2 pcs, one on large flan, matte finish; 513, 514, 515, 2 examples of a jeton bearing for its reverse the obverse of Br. 516, 519. Paris Mint symbol on edge. 10 pcs. UNC. Plate II \$300

1465→ Br. 510. Restrike in gold. Paris Mint symbol on edge. Likely 20 K. 19.7 grams. UNC. Purchased from Mel Came in 1957, as were the following five pieces. \$375

1466→ Br. 511. Restrike in gold, as preceding. UNC. \$375

1467→ Br. 512. Restrike in gold, as preceding. UNC. \$375

Mr. Hughes paid \$750.00 for the six gold jetons in 1957. I don't recall having seen any others offered in this metal.

LOWER CANADA & CANADA EAST.

1472→ Br. 520., (LC-1). Magdalen Island penny, 1815. VF.- EF.

\$275

1473→ Br. 521., (LC-9D2). Bank of Montreal penny, 1837. EF. Scarcest of the bank penny issues.

\$75

1474→ Br. 521., (LC-9C) and Br. 522., (LC-9A). Pennies of Quebec Bank, Banque du Peuple & City Bank, 1837, all VF., a nicely matched group: halfpennies of 1837 of the Quebec Bank (LC-8B), VF.; Banque du Peuple (LC-8C), fine; Bank of Montreal (LC-8D) and City Bank (LC-8A), both VF. 7 pcs. **Plate III** \$100

1475→ Br. 523., (LC-11A1) Sideview penny of the Bank of Montreal, 1838. Courteau 36. The tail of beaver on reverse nearly touches left top of M; the middle left leaf supporting arms points to A in BANK. VF., but two punchmarks on obv., and five such marks on rev., none affecting the design, being in the field. Sideview pennies are seldom offered. Indeed, the last 1838 penny to be offered in the extensive Hoare offerings of colonials was the Oppenheim specimen in Hoare Sale 15, Oct. 28, 1989. **\$850**

1476→ Another, dated 1839., (LC-11B). EF., but damage to beaded border and edge at 8 o'clock, couple of small edge nicks. An old ticket indicates the piece was sold by L.A. Renaud in May 1929. Purchased from W. Baker. **\$1000**

1477→ Br. 524. (LC-10A1). Sideview halfpenny, 1838. Courteau 30. No period after SALUS, beaver's tail covers the top of left stem of M. VF., but many obv. scratches and puncture attempt through O of MONTREAL, showing through to rev; other rather minor damage to rev. Purchased from Jos. Guindon. **\$175**

1478→ Another, dated 1839. Courteau 35. (Mule of obv. of 33, and rev. of 34.) (LC-10B3). Countermarked MAPPLEBECK & TOWE though the cataloguers (Sotheby et al) of the Murdoch collection, wherein this specimen was first offered on the 21st of July, 1903 (Lot 494), suggested MAPPLEBECK & LOWE. It was purchased by Spinks for 2 pounds. It seems to me that I have seen the piece offered in at least one other sale in the United States of many years ago. Fine, holed at top, still very desirable with this countermark. **\$300**

1479→ Br. 525., (LC-11C). Very rare sideview penny with BANQUE DU PEUPLE on ribbon, 1839. chocolate EF., but some old scratches on building. Still the best one that I've handled and worth every bit of \$3500

1480→ Br. 526. (PC-2B). Province of Canada penny, 1842, fine; Br. 527 (PC-1B3), 1842 halfpenny, nice Abt UNC, but some unfortunate obv. scratches and small spot of rev. corrosion; sim., 1844 halfpenny, VF.-EF., has been cleaned; Br. 528, (PC-4), Quebec Bank Penny, 1852, VF.; Br. 529, (PC-3), Quebec Bank halfpenny, 1852, VF., a vandal has removed the 8 in date. 5 pcs. The 1842 halfpenny is worth a look. *Plate III* \$75

1481→ Br. 526a., (PC-2A1). Lower Canada/Province of Canada so-called mule, 1837/1842. Obv. Br. 526 (1842). Rev. Br. 521 with City Bank on ribbon, 1837. Medal die alignment, regular size flan. 16.52 grams. Abt UNC., rev. edge nick. \$300

1482→ Another, but with coinage die alignment and on thick flan. 23.73 grams. (PC-2A2). The C of CANADA is very weakly struck up, and the OF is also weak though not so much as the C. A die break occurs from the left horizontal serif of A in BANK to bead in border, and another crack occurs from just below second A in CANADA to trees at right. Abt UNC, rev. dark spot, edge shows old file marks all around, but the coin is genuine. Purchased from Karl Stephens. \$350.

These so-called mules have been the subject of controversy for years. They have been called restrikes and attributed to W. J. Taylor, and indeed there are many irregularities that have caused doubt as to their authenticity. There is a specimen known in nickle, another in brass, and they are known from unfinished dies. Courteau has suggested that these pieces in all probability preceded the issuance of the 1842 pennies, his opinion being that the obverse of the piece was the earliest version of the die. He correctly points out that they cannot be mules as the obverse is different from all others used for the 1842 pennies, and is likely earlier. The reverse is also different, though only slightly so in comparison with the obverse. The V-shaped die crack in centre of cross on rev. arms that always occurs on this piece clearly puts it later than all 1837 reverses, so if we accept Courteau's opinion that the obverse is earlier than all others of that date, the coin can probably be dated to early 1842. Courteau is correct about typical average weight specimens dating to 1842, but the Taylor story cannot be easily dismissed. There are most certainly later pieces (post sale of Soho Mint dies, April, 1850), and the second offered piece is no doubt one of them, as suggested by the die breaks and unusual thickness of the planchet. Nevertheless, the variant Taylor pieces are rarer than early issues which should be disclaimed as mules and accepted as original pieces.

1483→ Br. 529. (PC-3). Quebec Bank halfpenny, 1852. EF., has been cleaned; 2 other interesting pieces with hand-made serrated borders, made to serve as some sort of household tool. These last two are from Gibbs Collection, though which of them (H.G.D. or Jeremiah), we know not. 3 pcs. *Plate III* \$85

1484→ Br. 530. Montreal & Lachine Railroad Third Class token, (1847-1862). Nice clean VF. \$275

1484A→ Commemoratives of the centennial of the Montreal & Lachine Railroad, 1947. copper and silver, the last struck in a rather limited number. They are frequently, but erroneously called restrikes of the original token. The silver piece is from the Flick coll. EF. 2 pcs. *Plate IV* \$200

1485→ Br. 531. (LC-12). Montreal halfpenny, 1816, VF., old scratch across obv.; Br. 532, (LC-13B). Duncan halfpenny, 1841, VF., little scaly; Br. 533, (LC-14). Canada halfpenny, F-VF.; Br. 561, (LC-15A1 & 15A2) T. S. Brown's card, (1837), both vars. in fine; Br. 563, (LC-17A1) Mullins card; Br. 565, (LC-19), Shaw's card, (1837), VF.-EF., edge flaw. 7 pcs. *Plate IV* \$125

1486→ Br. 534. Bout de L'Isle token. Lachenaie to either Montreal or Repentigny for a "CALECHE". clipped, as are almost all of this series (534-537). VG., rather pitted. Purchased from Jos. Guindon. Scarce. \$200

1487→ Br. 535. Another. For a "CHARRETTE" (cart). clipped. VF., but some pitting, and a few edgenicks. It is rather the exception to see these tokens free of any abuse. I believe them to be the oldest of North American transportation tokens and apparently saw much re-use in the short period of the bridges. Purchased from Jos. Guindon. Scarce. \$300

1488→ Br. 536. Another. For a "CHEVAL" (horse). clipped. VF.-EF. This example is one of the 19th century "copies" referred to by Dr. Courteau in a letter to Doug Ferguson (1929) as having been made by Louis Laurin. The features that distinguish it from the original is a star instead of the six-petalled ornament that appears on obverse under MONTREAL, as well as a pair of dots on either sides of the ornament which occur on the original, as opposed to the elongated diamond symbols on the copy. The copy is also on a heavier planchet. \$75

1489→ Br. 537. Another. For a "PERSONNE" (person). fine, but rather dinged. The rarest piece of the series. \$500

1495→ Br. 543. Another. For a "CHARRETTE". This piece is a cast. VG. Purchased from Jos. Guindon. \$50

1490→ Br. 538. Similar. From the Island of Montreal to either Repentigny or Lachenaie. For a "CALECHE". VF.-EF. This, and the following do not occur clipped. Scarce, particularly this nice. \$400

1496→ Br. 544. Another. For a "CHEVAL". EF. Rare, particularly this nice. Purchased from Jos. Guindon. \$500

1491→ Br. 539. Another. For a "CHARRETTE". EF. Rare in this grade. Purchased from Jos. Guindon. \$450

1497→ Br. 545. Another. For a "PERSONNE". about EF, but has a very severe dent. \$175

1492→ Br. 540. Another. For a "CHEVAL". VF.-EF. Scarce, particularly in this condition. Purchased from Jos. Guindon. \$450

P.N. Breton's text on pages 43-51 of his classic ILLUSTRATED HISTORY OF COINS AND TOKENS OF CANADA, Montreal, 1894, serves as the standard account on the history of the three short-lived bridges. His work on the bridge and the tokens is a thorough piece of research.

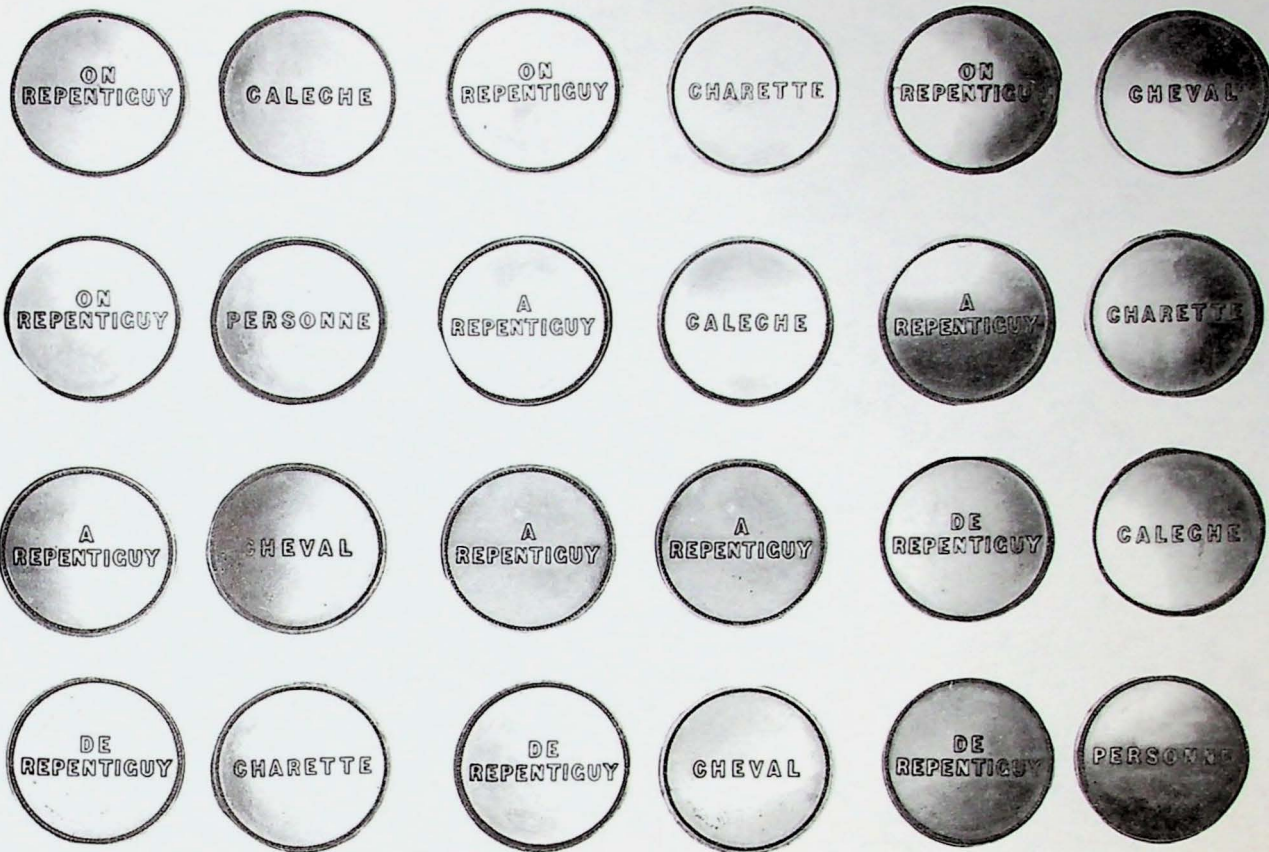

1493→ Br. 541. Another. For a "PERSONNE". VF.-EF. Scarce, particularly this nice. Purchased from Jos. Guindon. \$400

1494→ Br. 542. Similar. From Repentigny to either the Island of Montreal or Lachenaie. For a "CALECHE". VF. \$275

WE ARE ALWAYS LOOKING FOR GOOD SINGLE ITEMS OR COLLECTIONS FOR FUTURE AUCTIONS. PLEASE CONTACT US IF YOU HAVE ANY QUESTIONS.

1498→ Br. 546-557. The controversial Repentigny tokens. Copper proofs of each of the types. Purchased from Frank Rose for \$3500.00 in 1977, and believed to be the McKay-Clements set sold May 13, 1976, Lot 77, at \$2585 Only three or four sets known to exist. 12 pcs. \$4500

See Breton's and Lyman Low's account of the tokens and their discovery in 1890 in his "Illustrated history..." By 1894 only one set was known, the one purchased by Low from the acquirer of a lot of various pieces sold by Sotheby, Wilkinson and Hodge on July 31, 1890.

11499→ Br. 558. (VC-2), Famous Vexator Canadiensis halfpenny, 1811. F-VF. for the piece, a good-size planchet clip, unusual on the Vexators. \$300

1500→ Br. 559, (VC-3). Vexator M. L. Canadiensis halfpenny, 1811. F-VF. for the piece. Struck on thin flan. Possibly a little scarcer than the preceding. \$350

A most interesting article on these satirical pieces was written by Bob Willey and published in the *Can. Num. Ass. Journal*, March, 1966.

1501→ Br. 560. Lauzon Ferry token, 1821. VG.-fine, scratches on obv. and rev., still a presentable piece. Purchased from W. Baker. Rare. \$400

The ferry which crossed the river from Levis to Quebec was owned by James Goudie a prominent shipbuilder at Quebec. Built in 1817, the Lauzon has the distinction of being the first ferry on the St. Lawrence. In 1822 Goudie and four partners entered the fur trade having effected a 20 year lease on the King's Posts, but it was a poor business venture for Goudie who sold out his partnership the following year.

1502→ Similar. Obverse countermarked J. McK. for James MacKenzie. F-VF., but holed. Rare. \$400

MacKenzie had worked for Goudie, running the Hotel Lauzon. In 1825, after Goudie's death MacKenzie rented the hotel as well as the steamship Lauzon. He later bought the hotel at sherriff's auction, and likely acquired the Lauzon at about the same time. In 1828 he had built his own steamboat and named it the New Lauzon.

1503→ Similar. Reverse countermarked J. T. for John Thomson. VF. Very rare, only five or six others known. \$1000

John Thomson was in the lumber business as the agent for Sir John Caldwell, the Seigneur of Lauzon, a partner in the original Lauzon Ferry. Descendants of Thomson claimed the pieces were used as passes for the Thomson family; thus few would have been so stamped.

1504→ Br. 562., (LC-16A1). William Molson's card, 1837. Thin flan. var. VF. \$250

1505→ Similar. (LC-16A1). Thick flan. VF.-EF. \$250

1506→ Br. 563a. So-called Mullins farthing, scarce, and a very nice example, being EF. Ex Wayne Raymond, Jan. 22, 1938, and Hoare Sale 6, Feb. 27, 1988. (Realized \$220.00) \$350

1507→ Br. 564., (LC-18). Famous Owen Ropery card. VG.-fine, some corrosion spots within roped border, on reverse. Very rare, only one has been offered since the McKay-Clements sale in 1976, that specimen being punched realized \$1430. Purchased from W. Baker in Jan. 1972. We estimate this card to be worth \$4000

The rarity of the Ropery card is a result of the business having operated for only one year, from 1824-25. To have issued the token, Owen must surely have anticipated a fast expanding and successful business, but it never grew from the small one operated on Gain St. in the east end of city, which according to McLachlan "consisted of an open shed by the side of a fence, under which was a wheel turned by hand. The quantity of hemp used was less than four tons per annum and a small supply of lines rather than ropes, the product. In 1825, Mr. J. A. Converse, whose father was an extensive ironfounder in Troy N.Y. came here and established a much larger ropery, and Owen finding that his small hand power concern could not compete with it, sold out to Converse. The purchase was not an extensive one, consisting mainly of two tons of hemp and the wheel. Owen afterward removed to Kingston, when he induced the Government to establish a ropery in connection with the Penitentiary, but this venture also proving unsuccessful, the Government advertised for another manager, and Mr. Converse sent up his foreman Coyle to run it." The quoted material is from McLachlan's article entitled OUR RAREST CANADIAN COINS, published in the Can. Ant. & Nwn. Journal, July, 1882. McLachlan appears to have interviewed Converse in the latter's later years.

1508→ Br. 565. J. Shaw & Co.'s card (1837). This specimen is something of a scarcity due to the W in HARDWARES being struck up, a very unusual circumstance. It was first mentioned in the Hidden Sale, Oct. 14, 1914, and the statement made: "The W in HARDWARE entirely struck up. The first we have seen in which this was the case." I have had three or four, and consider it to be very scarce, Fine, small punch marks on Ob. Purchased from W. Baker. \$350

FOR JUNE 1994

1509→ Br. 566. Maysenholder & Bohle storecard (supposedly 1849, or shortly thereafter) VF. scarce. Purchased from Jos. Guindon. \$400

This is a most interesting token, but cannot rightfully take its place as a member of the colonial series as it has been proven to be a fabrication executed around 1886. A fanciful story was developed by the perpetrator(s) that five or six pieces were found in a drawer with other tools, part of the effects of the late Maysenholder which was sold at auction some short time after his death in 1862. McLachlan exposed this piece in 1892 in an interesting article entitled SOME RECENT FRAUDS IN CANADIAN COINS. It appears that A. Desroches (Br. 573) may have had something to do with the scheme as he ended up with 31 pieces, presumably the total population. Seven other uniface strikings are also known. Still, an eminently collectable piece, and rather attractive.

1510→ Br. 567. Hunterstown token, 1852. A cast copy. VG. ex Golsmith/Meloche Sale, Nov. 19, 1971. An original has not been offered for years. \$100

1511→ Lead printing block for reverse of Hunterstown token. This is no doubt Lot 95a of the McKay-Clements Sale (May, 1976) where it was described as a trial piece. It sold for \$121 VF. \$100

1512→ Br. 568. Weir & Larminie 10c enclosed postage, (1862). The casing is VF., stamp is worn due to the original mica not being present. \$750

Robert Weir and William Larminie had a short-lived partnership as exchange brokers in Montreal. The excess of U.S. silver coins in circulation, and the poor state of the copper currency resulted in the establishment of a decimal system in Canada. Weir and Sir Francis Hincks were the prime movers in this project.

1513→ Br. 569. Devins & Bolton, Montreal, 1867. Their worm pastille card, VF.-EF., little darkness on bust, and the countermark on an 1851 U.S. cent. VF. 2 pcs. \$85

1514→ Br. 570. Rice Sharpley's card, (c1865) 3 specimens: brass gilt, EF.; copper, which I believe to be scarce, F-VF.; uniface example, (obv. only), but it appears to have been very neatly filed down by an enthusiast hoping to create a new variety. The piece has also a 14mm. clip, across lower left (obv.). VF. Plate IV \$125

POST CONFEDERATION QUEBEC.

1515→ Br. 571. Gagnon, St. Roch, Abt UNC.; Br. 572, Card token, EF.; Br. 574, Gnaedinger's card, Abt UNC, and another with four pinhead perforations; Br. 574a (Moosehead) UNC. 5 pcs. Plate IV \$150

1516→ Br. 573. A. Desroches' numismatist card, (1886) w.m. Breton states 110 pieces were struck in 1886. EF. \$45

1517→ Another, in copper. With large obverse die break from border, through A of MONTREAL, to between 1866 - 1885, to border. As the dies were still extant in 1886, it can be presumed that this piece was struck sometime thereafter. EF. \$45

1518→ Br. 574b. Gnaedinger's 50th anniversary token, 1852-1902. (Moosehead) Rare striking in silver. Very few of these were struck. Purchased from Charles Moore, Auction Canada, Lot 994, for \$1205 \$1000

1519→ Br. 575. D. Desjardins, Tailor, Montreal. (1887, though the date on the token is 1885, the year he commenced collecting. This can therefore be considered a numismatist card.) copper. UNC. and a later issue of the same firm, good for 25c in trade. brass. EF. 2 pcs. \$50

1520→ Br. 576. E. A. Cardinal's numismatist card, 1886. Cast copy of this very rare card. Fine, now a little deteriorated due to the elements. This is the piece from the R. W. Williams Collection, and sold by W. Baker in 1974 for \$50I have only handled one original. One of two examples of the token in the Ludger Gravel inventory list a "counterfeit" at \$2.00 in 1935. Purchased from W. Baker in Sept., 1974. \$75

1521→ Br. 577. Similar to above. brass. EF. Purchased from W. Baker, May, 1969 for \$20 \$50

1522→ Br. 578. Similar. brass. EF. Purchased from W. Baker, Nov., 1970 for \$15 \$45

1523→ Br. 579. Lymburner Brothers, (1871 and later). Examples in w.m., thick, VF.; w.m., thin, EF.; copper, thin, EF. 3 pcs. Plate V \$50

Early examples struck by Lymburner, and perhaps Woodward who acquired the dies from Lymburner's partner, Chas. Martin, are on thin flans according to Breton. Thicker examples were struck later by Leroux who acquired the dies from a Woodward auction. The above lot contains two of the presumably earlier pieces. M. E. Lymburner apparently had an interest in numismatics as attested by his entry in Mercer's Directory, 1884, therefore this, and the following two tokens can be included in a collection of numismatist cards.

1524→ Br. 580. M. E. Lymburner, (1884). copper. One hundred specimens struck by McLachlan and Moccock after an original issue of two pieces. EF. \$40

1525→ Br. 581. Similar, 1886. w.m. EF. Purchased at C.N.A. Auction, 1969, as part of Lot 737. This was from the Bowman coll. \$75

1526→ Another, but in brass. EF. I believe this to be rare in brass. Purchased from Jim Charlton, Sept., 1969. \$200

The tokens can properly be included in the category of numismatic cards. Williams, a collector since 1874, never sold his collection. It came to an elderly daughter who consigned it in 1969 to Sotheby's, Toronto. Later, other pieces were privately sold by a nephew of Williams' daughter.

Also included is the Gravel Prize Medal for Arithmetic as well as the small-size copper Gravel/Balmoral token sometimes identified as Br. 647a. In all, ten pieces. EF. *Plate VII* \$500

It seems appropriate to offer the set (Br. 640-647) intact. The Gravel tokens can properly assume their role as nummist cards, Gravel having had them struck in order to exchange with other collectors.

1572 → Br. 640. Gravel's card in copper, an off-metal of which very few must have been struck. It is not mentioned in the Gravel inventory though he identifies a specimen of Br. 641 in german silver. EF. Scarce. \$100

1585→ Br. 662. Tellier replacement token. 31 pieces struck by J. O. Marchand according to Breton. lead. Fine. Very rare, much more so than the preceding. When offered, which is infrequently, the token occurs in white metal and this lead piece is rarer again than the more typical white metal specimens. Br. 662 is second in rarity in the Quebec series only to Br. 576. Purchased from W. Baker.

\$350

1586→ Br. 663. Baquet's bartoken for 1 verre (glass). lead. VG. The suggestion is made by Breton that the piece is early, Baquet having been a hotelkeeper in Quebec from 1852 to 1861. A mysterious "hoard" appeared in 1892. The piece is now scarce.

*This interesting piece can properly fall into two categories other than its association as a "Breton token". Baridon was a numismatist, and the piece was almost certainly struck with the idea in mind to exchange with other collectors. An examination of the plate of Br. 675 (Wilson Sale plates for 1925 Sale) does not convince me that this present specimen is the same as the Wilson plate coin. They are about equal in grade, and very similar indeed, but the N in TOKEN is in the case of the Wilson 1 specimen. An early collector has entered the no. "675" in black on rev., a common practice of the 19th century. 1602 → Br. 689. Picault's sou. Copper striking by the Numismatic and Antiquarian Society of Montreal, one of 36 struck between 1890 and 1893. nice UNC. Purchased from W. Baker, June, 1969. \$250

1603 → Another, (LC-43A2), C.24, but an earlier issue in lead, struck without collar, c1863. Sold with early ticket indicating the piece was sold to the collector (Dr. Richard Bateman) in 1897 by J. Bronsdon. It was offered as part of the Lindsay McLennan collection (he had acquired Bateman's) in the C.N.A. Auction, Aug., 1969, acquired by W. Baker and sold to Roy Hughes. An almost 100 year old pedigree on this rare piece of which only 3 or 4 were said to have been struck. Fine, or better but badly affected by lead disease which has been arrested, but almost too late. Even like this, valued at \$350

1604 → Br. 690., (LC-44), C-40. So-called Boston sou. The piece is not contemporary to the series. It was first catalogued by McLachlan in 1886, and was likely struck not long before that date. Courteau considered it an imitation of Br. 692, struck at a much later period. The obverse is similar, but not the same as an obverse made for Thomas Elder which is combined with various other dies, the most common reverse being DEDICATED TO THE COIN COLLECTORS OF CANADA. EF. Purchased from Jos. Guindon. \$250

1605 → Copy of Elder issue of sou similar to obverse of Br. 690. Struck on large thick blank; the reverse is plain. This, and other like pieces such as SPEED THE PLOW, etc. were struck off by Robert Baslow of New York City who had apparently obtained some of the Elder dies. Abt UNC. \$50

Graded as a "clear very fine", and estimated at \$800 The piece was eventually hammered down at \$3400.00, which, with the 10% buyer's fee cost the purchaser \$3740.00! The next specimen was offered in Sale 13 (Oppenheim Coll.), Oct. 1989 and, though not as nice as the previous offering, realized \$4620.00 on an estimate of \$2500 VF., better than the Oppenheim specimen. 1623→ Another, struck in silver proof, toned grey/mauve. Supposedly only 12 struck by Thomas. Very scarce. Purchased from Frank Rose Auction, Nov., 1973 for \$330/\$750

In 1894 J. Rochelle Thomas announced that he had discovered the original dies of the Copper Company halfpennies, and offered to collectors the opportunity of purchasing "restrrike" specimens struck from these "original" dies. The pieces are in fact from entirely new dies, very similar though not as fine as the originals. It has sometimes been suggested that the dies from which these pieces were struck are contemporary to those used to strike the original Copper Company halfpennies, and that they were rejected and never used until their resurrection by Thomas. Based on J. Rochelle Thomas' other numismatic shenanigans, as well as his lie about the pieces being from "original" dies, viz., the known true originals, this is highly doubtful. There are three articles highly recommended on the subject: NUMISMATICA AMERICANA THE COPPER COMPANY OF UPPER CANADA BY John J. Ford, Jr., in *The Coin Collector's Journal*, May-June, 1951; THE COPPER COMPANY OF UPPER CANADA HALFPENNY - A STUDY by J. E. Everingham, in *Warren Baker Lists* Nos. 28, 29, (1977); THE COPPER COMPANY OF UPPER CANADA HALFPENNY TOKEN by David Vice, in *Spink's Numismatic Circular*, March-June, 1977.

This is not a Canadian piece, yet it still occurs in almost every important Canadian collection. The mill is situated in a part of Blackburn known as Nova Scotia and is called the Nova Scotia Mill. The same firm, or their predecessors, owned two other mills called Crossfield and Wellington." PRINCE EDWARD ISLAND

1794→ Prince Edward Island Holy Dollar. 8 Reales, 1800 Charles IV, Mexico City Mint, Assayer FM. VG. \$2,000

Spanish American "Dollars" of 8 reals were holed by order of the Governor Smith of P.E.I. in 1813 to overcome a shortage of circulating specie on the Island. Because the dollars thus holed were now mutilated, it was expected that they would not leave the Island and were over-rated to pass as five shillings currency. It is assumed that a distinguishing "sunburst" countermark in the form of ten small triangles was applied to all specimens holed in this manner. Almost immediately, local Charlottetown merchants, seeing the possibility of profit, produced their own Holey Dollars to circulate alongside the Government issues. These imitations circulated for upwards of ten years and are legitimate P.E.I. token currency. It is now impossible to distinguish Government originals from merchant imitations. This specimen shows five heavy punched triangles, with the faint trace of a sixth. This coin was lot 1952, plated, in the August 28-30, 1969 James Charlton C.N.A. Auction. Catalogued by Chris Faulkner

LISTED IN BRETON, BUT NOW ATTRIBUTED
TO ST. LUCIE.

1799→ Br. 924. Anse Canot 5 (sou). EF. Rarest denomination of the series. Purchased from Paul Nadin-Davis, Oct., 1982, for \$350. The Ray Byrne specimen had sold for U.S.\$850.00 in June, 1975, and it was described as "possibly unique." \$750

Attributed to Prince Edward Island by Breton due to the place name Canoe Cove in Queen's County, P.E.I., and probably influenced by Cyrille Tessier who had the only known specimen (10) at the time of the publication of his book in 1894. The French had lost claim to the Island a century prior to the probable date of the tokens, and it be reasonably argued that they belong to the Canadian series. They have been attributed to St. Lucia in the West Indies by Ray Byrne and are popular with collectors of that series. Nevertheless, several of the best Canadian collections still contain a specimen of one or more of the tokens as a matter of completing the series.

1859→ Br. 1001. (LC-55). Ship/Commerce (halfpenny) Probably unique piece which features the obverse of Br. 997 (Ships, Colonies & Commerce), single H placed vertically between exergual line at right; the reverse is that of Br. 1011, but appears to be in an early state, or has been reworked. F-VF. Unique. Undoubtedly the specimen known to Breton, and the one illustrated in the Charlton catalogues from 1964-1978. Ex Fargeon to Hendler, to Nadin-Davis, and sold to Roy Hughes around March, 1986. The specimen likely came from Courteau, thence to Wickham, and Fargeon purchased it from the Schulman/Wickham offering in 1947. Sold with a file of notes regarding the coin. \$3000

Graham Estler, Curator of the Bank of Canada Currency Collection stated the following in a letter to Roy Hughes in October, 1990: "The more fundamental question is does Breton 1001 exist as a genuine token or was it a concoction simply made for the collector market of the day. The combination of the beaded border on the obverse and the total lack of any indication of beading on the reverse leads us to question the authenticity of the piece. If it is possible we would suggest that the piece be x-rayed. It is our opinion that the token itself i.e. B 1001 does not exist as a genuine piece. In this we concur with the opinions of McLachlan, Lees, Wickham, Renaud and Brushfield, all of whom considered B.1001 as a fake. Nevertheless, the piece, fictitious or not, does appear in Breton's catalogue as 1001 and your piece satisfies Breton's listing."
